FEARED 300 LOST LIVES WHEN TWO VESSELS COLLIDED LAST NIGHT IN IRISH SEA; BOTH CRAFT WENT DOWN

Connemara, Owned by London and Northwestern Railway, and Retriever, of London, Struck Off Carlingford Lough and Sank; a Few Bodies Have Been Washed Ashore on County Down Coast

London, Nov. 4.—The London and Northwestern railway steamship Connemara, bound from Greenore to Holyhead with passengers, collided with the steamship Retriever in the Irish sea last night. Both vessels were sunk, and it is feared the death toll is about 300. As far as is known there is only one survivor from both ships.

The railway company says it is unable to state whether any Canadians or Americans were aboard these vessels. They seldom carry passengers.

London, Nov. 4.—A dispatch to Lloyds' shipping agency from Belfast says that the collision between the steamships Connemara and Retriever occurred off Carlingford Lough, an inlet on the Irish coast, between the counties of Down and Louth. The Retriever was inward bound.

A few bodies have been washed ashore on the County Down coast. The dispatch says it is feared 300 lives have been lost.

Fifty Passengers.

London, Nov. 4.—The marine superintendent of the London & Northwestern railway said that so far as he knew there were only 50 passengers on the Connemara. Her crew numbered 31.

Forty From Newry.

London, Nov. 4.—A dispatch from Newry, 34 miles southwest of Belfast, received by the London Press Association, says there were about 40 passengers from Newry on board the Connemara.

The Connemara, of 1,106 tons gross and 272 feet long, was built at Dumbarton in 1896.

The Retriever was 190 feet long, of 674 tons gross, and was built at Goole, Eng., in 1909. She was owned by the West Coast of America Telegraph Co. of London.

A steamer service is maintained by the London & Northwestern railway between Holyhead, Wales and Greenore, Ireland, a distance of about 80 miles across the Irish Sea.

CANADIAN GUNS HAVE BEEN DOING SHARE

Have Been Bombarding Steadily North of Somme; Official Account

London, Nov. 4.—The following communication was issued by the Canadian record office in London, today:

"Canadian communiqué.—During the past week there have been no active infantry operations, although large patrols at night have reconnoitred enemy positions. Our artillery, despite the unfavorable weather, has maintained a steady bombardment of the German trenches. Many of these are now subject to close observation and any movement or activity of the enemy has immediately drawn a concentrated fire. Upon one occasion in particular a certain trench was reported to be full of Germans. Our guns were turned on and caused a very noticeable destruction."

"A heavy monotonous task has been demanded of our men in the work of improving and consolidating their lines. They have labored under the worst of climatic conditions. The weather during the day time has been consistently cold and rainy, although at night the sky usually has cleared and given a decisive promise of improvement."

"The enemy has made no further attempt to retake the trenches recently captured by us."

WILSON LINER SPERO SUNK BY SUBMARINE

London, Nov. 4.—The Wilson liner Spero, of 1,132 tons gross has been sunk, according to a dispatch from Hull to the Daily Mail.

The Spero was 250 feet long, 30 feet beam and 15 feet deep. The vessel was built in 1906 and was owned by the T. Wilson Sons & Co. Ltd., of Hull.

INTERMITTENT SHELLING ON THE FRENCH FRONT

Paris, Nov. 4.—There was intermittent cannonading along the Somme front and in the region of Port Vaux and Fort Douaumont on the Verdun front, last night, the war office announced this afternoon.

ABOUT TO INCREASE WAR ON NEUTRALS

Germany's Plans Regarding Ships Whose Cargoes Are Examined by British

MAY START TO SINK ALL NEUTRAL SHIPS SHE CAN

Effort to Make a Hole in British Navy's Close Blockade

London, Nov. 4.—A special dispatch from Amsterdam features a statement of the Berlin Kreuz Zeitung to the effect that Germany has decided to make the safety of neutral ships carrying neutral cargoes dependent upon guarantees that no part of such cargoes shall be landed, whether through British compulsion or not, at any British port.

Such guarantees, according to the Kreuz Zeitung, can consist only in formal undertakings by Great Britain, and such undertakings will be recognized by Germany only from case to case.

No Inviolability. This is taken to mean that in the event of any neutral cargo or part thereof being landed in the United Kingdom, the German government immediately will cease to recognize the inviolability of neutral ships. The Berlin paper implies that the case of the Dutch freighter Bloemendijk, which was sunk by a German submarine off Nantucket on October 8, will be argued along these lines, and it will be contended that as the intermediate destination of the vessel was Kirkwall, there was no guarantee that the whole cargo would reach Holland.

The British press also infers from a Berlin dispatch summarized in the Koelnische Zeitung, that Germany proposes to sink all the neutral ships she can, whether bearing neutral cargoes or otherwise, unless Great Britain consents to abandon the right to compel discharge at Kirkwall of any part of a neutral cargo suspected of having an enemy destination.

GERMANS EJECTED BY BRITISH TROOPS

Thrown From British Trenches Near Guinchy; Attack North of Somme Failed

London, Nov. 4.—Strong German forces last night entered British trenches near Guinchy, 7 miles east of Bethune, says an official statement issued this afternoon, but the invaders were immediately expelled.

German troops yesterday launched a counter-attack east of Gueudecourt, north of the Somme, the statement adds, but they suffered very heavy losses in proportion to their strength.

The text of the statement follows: "Rain fell heavily during the night. We successfully raided enemy lines northeast of Armentieres (near the Belgian frontier)."

"A strong enemy party entered our trenches near Guinchy, but was expelled."

"An enemy counter-attack east of Gueudecourt (north of the Somme) yesterday suffered very heavy losses in proportion to its strength. Over 100 dead have been counted. Thirty prisoners and four machine guns were captured."

German Statement.

Berlin, Nov. 4.—Attacks yesterday on German positions northwest of Courcellette and in the Gueudecourt-Leboeufs were repulsed, the war office announced today.

The text of the statement follows: "Hostile attacks north of the Somme were preceded by violent artillery duels. The attacks, however, carried out in only light fashion under our fire to the northwest of Courcellette and in the sector of Gueudecourt and Leboeufs, were repulsed."

"Nine hostile aeroplanes were shot down in aerial engagements and by anti-aircraft guns."

"Army group of the German crown prince.—The hostile fire increased considerably during the afternoon against our positions on the heights east of the Meuse (Verdun front). French attacks between Douaumont and Vaux were without success."

MAJORITY AGAINST CONSCRIPTION IN AUSTRALIA IS CUT

Melbourne, Nov. 4.—While returns from the conscription referendum are still incomplete, the majority in opposition to compulsory service is being reduced daily.

On the Carso Front Italians Advanced Over One Kilometre

Rome, Nov. 4.—Continuing their new offensive against the Austro-Hungarian forces in the Carso region, Italian forces yesterday advanced in the direction of the Wippach river for a distance of more than one kilometre. During the day the Italians took 553 prisoners.

5,999 RECRUITS IN MONTH OF OCTOBER

Were 358 Fewer in Canada Than During Month of September

371,595 HAVE JOINED SINCE THE BEGINNING

Ottawa, Nov. 4.—The total recruiting during the fortnight ended October 31 amounted to 2,830, as compared with 3,159 during the preceding fortnight. This makes a total for the month of 5,999, as against 6,357 during the month of September and 7,267 during August. The extent of the dropping off is indicated by the fact that the total recruits for the first month of this year were 29,212.

The Toronto district leads the list for the fortnight with 492 men. Montreal comes next with 474; Manitoba and Saskatchewan, 428; British Columbia, 423; Kingston 256; Maritime Provinces, 251; London, 165; Alberta, 163; Quebec 118.

For the month the Montreal district leads the list with 1,154. Toronto comes next with 929.

The total recruiting to date has been 371,595.

GENERAL ELECTION WITHIN ONE YEAR

Opinion Growing at Ottawa Voters Will Be Summoned to Polls

Ottawa, Nov. 4.—The feeling is growing here that there will be a general election within the next year. Last night at Toronto Hon. A. E. Kemp definitely announced that it is the intention of the government to make a move this season to secure a further extension of the parliamentary term, which expires in October next. That will bring the matter before Sir Wilfrid Laurier, who up to the present time has made no public statement as to his intentions. While some Liberals here say that the policy of the opposition will be decided by the course of events during the next few months, the majority declare that there will be no further extension. They maintain that it is the desire of the majority of the people that they should be given an opportunity to express their opinion at the polls.

The Evening Free Press says: "An application for an extension of the parliamentary term by Sir Robert Borden may be regarded as the opening gun in a political fight which will conclude with an election. Refusal by Sir Wilfrid Laurier to agree to an extension will be the second gun of the fight. It will mean the acceptance of the government's challenge of battle. In fact it will mean a little more for the government cannot get out of a fight. It is between the statute of expiration and the Liberal refusal."

FRANKFURTER ZEITUNG AND WILSON'S PEACE IDEA

Berlin, Nov. 4.—The Frankfurter Zeitung prints a leading editorial expressing the opinion that the outcome of the election in the United States is very much in doubt. It treats with sympathy President Wilson's programme for eliminating war through a peace organization established through a propaganda of the peace idea, but refrains from expressing a preference between the candidates.

GERMAN CLAIM ABOUT FRONT IN GALICIA

Berlin, Nov. 4.—The following official statement dealing with operations on the front in Galicia was issued today: "Our successes on the left bank of the Narayuvka river were increased by the storming of additional portions of the Russian main positions southwest of Fely-Krasnolens. They were maintained against hostile attempts to reconquer them."

TOO MANY SENIOR CANADIAN OFFICERS

Over 200 Idle in England, Units Having Been Broken Up

STATEMENT BY WOUNDED OFFICER AT WINNIPEG

Lieuts., Non-Commissioned Officers and Men Needed for Trenches

Winnipeg, Nov. 4.—That 200 or more Canadian lieutenant-colonels, majors and other senior officers are at Shorncliffe and other military centres in England, drawing the full pay of their respective ranks, but not attached to any unit and with no prospect whatever of getting to France, is a statement made by a recently returned wounded officer here.

"It is utterly useless sending any more infantry officers of ranks higher than captain to England," he declared. "As soon as battalions arrive they are broken up for reinforcements and the reinforcements they want in the trenches are not colonels, but lieutenants and non-commissioned officers and men."

All these senior officers, of course, are keen to get to the front, and many of them make immense sacrifices to do so. It is said that at least twenty lieutenant-colonels and majors have reverted to rank of lieutenant in order to see service.

EXPECT NO CONVOY FOR DEUTSCHLAND

Some Washington Officials Regard Such a Step by Germany as Improbable

Washington, Nov. 4.—A report that the German merchant submarine Deutschland will be conveyed back to Germany by the war submarine U-57 has not been confirmed here officially, and in some quarters such a step is regarded as improbable, as it has been contended that a conveyed ship takes on the warlike character of her convoy and cannot claim the immunities of a peaceful merchantman.

The visit of a second German war submarine might be taken by the state department as offering an opportunity to request Germany not to conduct belligerent operations in the immediate neighborhood of the American coast. The matter is in the hands of Secretary Lansing, who will be at his home at Watertown, N. Y., until after election.

DOLLAR HAS SHRUNK TO 67 CENTS NOW

What Expert Says Who Figured Cost of Living in Canada

Winnipeg, Nov. 4.—The Canadian dollar has shrunk to 67 cents during the present war. This is the finding of an expert who has figured out the purchasing power of money to-day and compared it with that of two years ago, after the war started.

The increases in many cases are absolutely staggering. For instance, potatoes have gone up 171 per cent when bought by the peck. Other increases are: Bread, 80 per cent; milk, 20; butter, 60; flour, 64; canned goods from 10 to 50 per cent.

The percentages in each case vary with the locality, but the above is a fairly accurate summary of the deductions from authentic figures made by this Canadian expert on the cost of living.

GERMAN PAPERS DEAL WITH AMERICAN ELECTION

Berlin, Nov. 4.—The German press shows considerable interest in the approaching election in the United States, printing all available news arriving by way of Holland, or reprinting summaries of the situation from old English papers. The Roman Catholic organ, the Koelnische Volks Zeitung, today devoted a lengthy editorial to the subject, but studiously avoided taking sides. If the German people at one time, it says, sided with one of the candidates because they assumed that he was more friendly to Germany, they now see their mistake.

ROUMANIAN FORCES CONTINUE TO WREST GROUND FROM ENEMY

Have Advanced West of Buzeu Stream and at Table Butzi and Still Are Pursuing Austro-Germans West of the Jiul; Germans Admit Rosca Heights Were Taken by Ferdinand's Troops

Bucharest, Nov. 4.—The war office announced to-day that Roumanian troops have advanced to the west of the Buzeu stream and also at Table Butzi, on the Transylvanian front.

West of the Jiul the pursuit of the Austro-German forces continues.

There has been a bombardment all along the Danube.

Petrograd, Nov. 4.—The continued retreat of the Austro-German forces in the Jiul valley, on the Southern Transylvanian front, was announced to-day by the war office. Additional prisoners and four guns were captured by Roumanian troops.

Berlin, Nov. 4.—Rosca heights, southeast of Altschans, on the Hungarian-Roumanian front, have been occupied by Roumanian troops the war office announced today.

In the region of Predal Austro-German forces recaptured a position from the Roumanians.

The text of the announcement follows: "On the northern part of the Transylvanian eastern front fighting was again more active, but thus far without important infantry engagements. On the south front an isolated Roumanian attack was repulsed. Rosca heights, south of Altschans, have been occupied by the enemy."

"Southwest of Predal we recaptured a Roumanian position which had been taken on Nov. 2 but lost again the following night. More than 250 prisoners fell into our hands."

"During an enterprise on the part of Austro-Hungarian motorboats against an island in the Danube southwest of Rutchok, south of Bucharest, on the Bulgarian side of the Danube, two cannon and four mine throwers were captured."

KING PETER'S MEN FIGHTING DOGGEDLY

Blasting Their Way Inch by Inch in the Porog Sector

London, Nov. 4.—High praise is extended to the Serbian army on the Macedonian front by military observers here for its conduct on the difficult Porog sector. Opposed by Bulgarian forces numerically many times its superior, this handful of experienced campaigners has been making slow but steady progress against natural obstacles fully as formidable as those with which the Italians are confronted in their present drive on Trieste. Along a front of less than 20 miles, where the Bulgarian forces have occupied the crests of the mountain range, King Peter's troops have planted artillery and blasted their way, inch by inch, to points of vantage.

Added to the military disadvantages, this territory is a plague spot of malaria owing to the low-lying marshland which borders the base of the range for which the struggle now is going on. One fourth of the attacking troops, it is estimated, are disabled, and, under normal conditions of warfare, would be invalided to base hospitals, but nevertheless are steadfastly holding their places by the side of their comrades.

GREAT SUPPLIES OF SHELLS ON HAND

Official of British Ministry of Munitions Speaks of Situation

London, Nov. 4.—Dr. Addison, one of the chief officials of the ministry of munitions, told a party of journalists visiting Woolwich arsenal yesterday that Britain would be entirely independent of foreign steel supplies by March next. During the Somme offensive the expenditure on armaments had been about 10 times the weekly rate in the month of January last, but there were more filled shells in France to-day, he said, than there were at the beginning of the war.

With special reference to the steel supply, Dr. Addison said: "The more Great Britain was dependent upon a neutral country the more she was waging war at a disadvantage. One of the advantages of making things at home is to save vast sums of money, apart altogether from what would be lost on exchange."

He gave an interesting forecast, which was that as Great Britain was providing extensions of steel works at a probable saving of something like \$20,000,000 a year, Great Britain provided the programme was satisfactorily developed, would be entirely independent of foreign steel supplies by next March.

FRENCH LINER BEAT OFF SUBMARINE

Doukkala Won Fight Which Lasted Three-Quarters of an Hour

Toulon, Nov. 4.—The French liner Doukkala reports an attack upon her by a submarine, which she beat off after a fight lasting three-quarters of an hour, conducted at a range of 4,000 yards. The submarine is said to have fired seven shells.

The movements of the steamship Doukkala have not been recorded in marine registers since her arrival on January 19 last at Marseilles from Foclonica. She is a vessel of 4,500 tons gross, built in 1900 at Rotterdam and owned by the Moroccan & Armenian Navigation Company, of Marseilles.

BULGARIAN STATEMENT.

Sofia, Nov. 4.—The war office in a summary of conditions yesterday said: "Macedonian front—In a week attack the plain of Bitola was bombarded fruitlessly. In the Struma valley there was ineffective artillery firing. The enemy abandoned the village of Karauka."

"Roumanian front—There has been no change. Warships of the enemy shelled Constanza, but were driven off by our coastguard guns. Along the

Danube there was a mild exchange of cannon and rifle fire."

MORE PROGRESS MADE IN REGION OF VAUX

French Pressed on to Outskirts of Village; Footing on Crest

Paris, Nov. 4.—The following official report was issued last night: "On the right bank of the Meuse, after the capture of Fort Vaux, our infantry continued its advance to the outskirts of the village of Vaux, and north of Vaux Lake. We gained a footing on the crest dominating the village. The enemy did not attempt a counter attack."

"There is nothing of importance to report on the rest of the front except the usual artillery activity."

British Report.

London, Nov. 4.—The following statement was issued by the war office last night:

"Enemy troops on Thursday afternoon delivered counter attacks against the trench east of Gueudecourt, north of the Somme, captured previously by us, but were completely repulsed. During the day our artillery and trench mortars bombed enemy lines east of Fauquassart and in the neighborhood of Blairville."

"Yesterday in the course of aerial combats two enemy machines were destroyed."

STRONG POSITIONS TAKEN BY ITALIANS

Further Gains in Offensive Reported by War Office at Rome

Rome, Nov. 4.—The following official report was issued last evening: "Julian front—From Gorizia to the sea hard fighting, which resulted in further successes along the northern brow of the Carso plateau, continued yesterday. There the troops of the 11th Army Corps, who repulsed violent counter-attacks, took strong defences on difficult ground east of Voltri Brach and Mount Peclina."

"After taking several trenches and clearing the enemy out of the woods and caves, the 4th and 45th Divisions, in spite of an intense artillery fire and counter-attacks, held the line running from Mount Peclina over the heights of Point 219 to Point 229 on the Oppachinella-Castagnavizza road, 700 metres west of the latter."

"On the remainder of the front east of Gorizia and from Hudlog to the sea all the positions gained by our troops on November 1 have been maintained notwithstanding incessant attacks which were supported by concentrated artillery fire."

"During the day we took 3,498 prisoners, including 116 officers, among them a brigade commander, a regimental commander and three field officers. Two mountain guns, numerous machine guns and large quantities of arms and ammunition and war material of all kinds also fell into our hands."

"During a hostile air raid on the night of November 1-2 over the lower Isonzo, our guns brought down hydroplanes L-75. The officer and pilot were killed."

Enemy Statement.

Vienna, Nov. 4.—The war office reported as follows last evening: "On the front in the coastal region most bitter fighting took place yesterday. The Italians continued their attacks, and in doing so, used huge masses of men and large quantities of munitions. In the Wipbach valley our positions in the Fanovitzer wood, near Sober, east of Certerba, were the scene of furious attacks. The enemy was repelled everywhere. On the Carso plateau an Italian mass attack, which commenced by way of the Pecinka height along the road to Castagnavizza, was brought to a standstill with severe enemy losses. There two batteries fell into the hands of the enemy."

"On the southern part of the plateau all enemy attacks broke down before the front held by the brave Austrian landsturm regiments numbers 22 and 38 and Austrian infantry regiments numbers 15 and 98. The number of Italian prisoners increased to 220 men."

JONES AGAIN HEAD OF MEDICAL SERVICES

Maj.-Gen. Steel President of a Board of Canadian Services

London, Nov. 4.—Lieut.-Col. Shillington, of Ottawa, has been appointed assistant director of medical services to the training division at Shorncliffe, succeeding Lieut.-Col. W. P. Wilson.

Maj.-Gen. Charlton Jones has resumed duty as director of the Canadian medical services.

Maj.-Gen. Sam B. Steele is president of a new board of the Canadian services, which was formed for the purpose of utilizing more fully the surplus of senior Canadian officers coming to England with battalions, which on arrival here are broken up and used as reinforcements for units already at the front. Many will remain here, and others will return to Canada for instructional duties.

Among recent appointments in the Canadian forces are the following: Major Crowell, to be acting staff captain in the cavalry training brigade; Major S. F. MacDorrie, to be second in command of the pioneer training depot; Lieut.-Col. Colquhoun, to be acting brigadier at Bramshott; Capt. A. L. Smith has transferred to the Royal Flying Corps, and Lieut. S. Gullion has been gazetted a flying officer.

SOME SMALL GAINS MADE BY RUSSIANS

Petrograd, Nov. 4.—The war office issued the following report last night: "On the river Stockhod, in the regions of Vitonej and Alexandrovsk (five miles north of Kiskuln, Volhynia), fighting continues. There a battalion of one of our regiments succeeded in pushing back the enemy troops who had occupied part of our trenches on the western bank of the Stockhod."

"In the region of the heights east of Lipnicadola our troops, after having destroyed the opposing wire entanglements, pushed back the enemy in some places. A dense fog hindered the work of the artillery on the river Bystritsa. Near Krivitch our scouts, together with a platoon, made a surprise attack on the front and flank of an enemy company, dispersing them and taking some prisoners."

"Caucasus front—On Wednesday two of our aviators bombed Turkish encampments near Ithak Madjan, northwest of Nudik, and near Tyolan, in the eastern Chelik, and also two bridges over the Euphrates near Sagan. In the region of Sakiz (Persia) our scouts captured 1,500 head of cattle transporting wheat."

LIEUT.-GEN. MAHON TO COMMAND IN IRELAND

Succeeds Maj.-Gen. Maxwell; Expected Martial Law Will Be Withdrawn

London, Nov. 4.—According to the Yorkshire Herald, the government has decided to recall Major-General Sir John Maxwell from Ireland, where he is in command of the British forces, and he will be succeeded by Lieut.-Gen. Bryan Mahon, lately in command on the western frontier of Egypt.

Dublin, Nov. 4.—It has been known generally in Dublin for some time that Major-General Sir John Maxwell would be recalled and replaced by Lieut.-General Mahon. It is expected here that martial law will be withdrawn with the change in command, and a new effort for voluntary recruiting also is expected.

Major Price, chief intelligence officer at Irish military headquarters, it also is believed here, will retire.

It is reported that interned prisoners are to be released on signing an undertaking not to engage in seditious actions calculated to interfere with the successful carrying on of the war.

BRITAIN'S MUNITIONS PLANTS INCREASING

London, Nov. 4.—By next March Great Britain will be independent of American steel, said Dr. Christopher Addison, parliamentary secretary of munitions, in an interview discussing the work of the ministry of munitions.

"The augmented munitions programme for the coming year, said Dr. Addison, would require 315,000 additional men workers and 100,000 more women."

FRANCE HAS LOST BRAVE GEN. ANCELIN

Paris, Nov. 4.—Gen. Ancelin, who was
commander of the brigade which led in
the assault on Fort Douaumont, in the
Verdun region, on October 24, has died of
wounds.

Gen. Nivelle, the commander at Verdun,
in announcing the death of Mme. Ancelin,
alluded to the fact that her husband had
prepared for the victory and capture of
Douaumont.

Gen. Ancelin was a brilliant officer, and
had served as first assistant to three
ministers of war, Bertaux, Etienne and
Millerand, in the direction of the army
administration. He was in charge of the
organization of the French cavalry before
the outbreak of the war.

of treason. They were captured at
Hacienda Santa Ana, near Namiquipa,
and were brought to Juarez yesterday.

AUSTRIAN PAPERS ON AMERICAN ELECTION

No Influence on War, They
Think; a Vienna Paper's
Remarks

Vienna, Nov. 4.—The Austro-Hungarian press, which a week ago paid no attention to the American presidential campaign, has discussed the subject during the last few days as thoroughly as the fragmentary reports reaching Vienna will permit. Generally the papers express the opinion that the result of the presidential election will have no influence on the war.

"The Vienna Allgemeine Zeitung, after expressing the belief that the result of the election is in doubt, says: "The presidential election in itself is a matter for which the political life of Europe has no parallel. Questions in many cases more important than problems associated with the election of an executive chief in the United States are often decided in Europe by a vote in parliament. It is hard to imagine what the political atmosphere would be were it not for this storm which sweeps over the nation every four years. Just for this reason is the presidential election specifically American; that is to say, an internal affair in which questions of home politics give the decision. Reiteration of this fact is needed to guard against the view that the result of the American election would bring about a great change in the course of American policy or would materially influence the public attitude in the United States toward the European war."

"Mr. Wilson, should he remain at the wheel, would not let go the political plumb line he has held so far. Mr. Hughes, should he take Mr. Wilson's place, would not guide the policies of the country into new channels. American policies toward the central states (Germany and Austria-Hungary) during the coming months generally will remain what they have been, because motives underlying decisions of the American state department remain the same. A study of the country leads to the conclusion that Mr. Wilson's attitude differs in no particular respect from that of influential circles of American people, and that the course he has followed has been a consequence of that country's interior policy."

WIDER CREDIT FOR ALLIES IN STATES

Henry P. Davison Gave Some
Advice to Bankers at
Chicago

Chicago, Nov. 4.—Henry P. Davison, of J. P. Morgan & Company, New York, told bankers of Chicago and the middle west last night what he had learned of the credit situation in Europe on his recent trip there and its effect on financial affairs in this country. Mr. Davison and Charles H. Sabine, president of the Guaranty Trust Company, of New York, were guests of George M. Reynolds, president of the Continental & Commercial National Bank, at a dinner also attended by a score of the leading bankers of the middle west.

While the meeting was confidential it is known that one thing talked of was the necessity of a liberal policy of extending credit to the European countries buying American products. The suggestion of a greater use of acceptances in extension of credits also was discussed.

Earlier in the day Mr. Davison emphasized his faith in the solvency of Great Britain and France. He denied a published report that a demand would be made by the entente powers that Americans accept unsecured loans or face the demonization of gold. "After the war is over, Europe will buy where it can buy best," he said, "not only in the matter of prices, but in the matter of credit. To do our share of the business, we must extend the credit."

ROBBERS SECURED \$7,000 AT OKOTOKS

Blew Safe of Branch of Merchants' Bank and Escaped

Calgary, Nov. 4.—Holding up at revolver points a member of the staff who slept on the premises and then gagging and binding him, two masked robbers blew the safe of the branch of the Merchants Bank of Canada at Okotoks, 30 miles south of Calgary, at 2 o'clock this morning and escaped, presumably in a motor car, with cash amounting to something in the neighborhood of \$7,000.

Before committing the robbery the bandits cut the telegraph and telephone wires at each end of the town, and it was not until a messenger arrived here from Okotoks by motor car that the authorities were notified of the crime.

As far as the Mounted Police were able to ascertain at an early hour the burglary was similar to that recently perpetrated at Caron, Sask. The mode of operation seems to have been exactly the same.

"Did Perkins have any luck on his fishing trip?" "Enough to keep him in conversation for several weeks."

SCOTT'S ESCAPE.

The circumstances attending the "escape" of John T. Scott call for inquiry and explanation. Why was he permitted to re-cross the international boundary line? The fact that he was out on bail certainly cannot excuse the laxity which made his disappearance possible. Are the authorities, in the habit of presenting to men arrested and charged with serious offences such excellent opportunities for escaping trial? Knowing that Scott had made one attempt to leave Washington state for part unknown, why did they close their eyes to his movements when he was liberated on bail in Vancouver? Where was the attorney-general, who was so anxious to have Scott arrested last spring that he authorized the issue of a warrant for his apprehension and published the fact on the front page of the Vancouver papers where Scott might see it or hear of it, although immunity was granted to every other witness before the inquiry? Was that warrant merely a subterfuge designed to keep Scott away? Certainly in view of the professed anxiety of the provincial authorities to have Scott placed in custody it is amazing that he should have been permitted to leave the jurisdiction of the courts of this province. The four Burns detectives who were with him, of course, have nothing to do with the situation. They have no official standing either in Canada or in the United States, for that matter. Scott is supposed to have made a statement upon his arrest in Vancouver. Whatever that statement may be it is impossible to avoid the conclusion that his escape was facilitated to prevent him telling his story under examination on the witness stand, of being subjected to cross-questioning on the statement itself. Was the statement the purchase price of his escape? If it was, it is not worth the paper it is written on. Who is financing Scott? Why did the crown let the bird escape? It will be the duty of the new government to ferret out this mystery at the earliest opportunity just as soon as the present administration makes way. The administration of justice in the province must be tainted indeed when such a disgraceful episode as the "escape" of Scott is permitted.

SHIPPING LOSSES.

According to figures compiled by the New York Journal of Commerce 1,320 ships of an aggregate tonnage of 3,328,884 have been sunk during the twenty-seven months of war. Seventy-five per cent. of this loss has been suffered by the entente nations, eighteen per cent. by neutrals and seven per cent. by the Teutonic allies. The small proportion of enemy ships lost is due to the fact, of course, that after the first few weeks their commerce was swept from the seas with the exception of the Baltic, and even there British and Russian submarines made their activities very hazardous.

Germany's actual proportion of loss, however, is much higher than seven per cent. Large numbers of her ships were seized in British, French and Russian ports when the conflict broke out. Subsequently the intervention of Italy and Portugal involved the confiscation of many more. These vessels

are being used by the allies and Germany is sinking them whenever she can along with the rest. If the powers now neutral should intervene in the struggle Germany will have an opportunity to sink some more of her boats. The cream of her trans-Atlantic marine is now interned in American ports. The feelings of the German submarine commander who aimed a torpedo at the Imperator, for instance, easily could be imagined.

Notwithstanding the fact that the allies have lost some thirteen hundred vessels, representing 2,500,000 tons, according to the New York Journal of Commerce, their combined shipping, counting the enemy merchantmen seized by them and their new construction, is considerably greater than it was when the war began. Last month more than five hundred ships of various kinds were under construction in British yards, and it is not improbable that Great Britain alone has launched more ships than the net loss of all the entente powers together since August 1, 1914. She certainly has built more than she herself has lost, and is well able to maintain the lead. France's mercantile marine is larger to-day than it was when the war began, while that of Russia unquestionably is the same. No doubt Italy is in a similar position. The stress of war has stimulated shipbuilding in the entente countries as nothing else has stimulated it in many years, for the obvious reason that their shipping is a vital arm of their naval and military services and must be kept up at all costs.

THEIR "DRIVES."

Press dispatches from New York refer to the "big drives" the two sides are making in the closing days of the campaign. The Republicans say they have checked the "drift" to Wilson, while the Democrats have stopped the "slump" in the direction of Hughes. Large sums are being expended in these strategic operations, stumpers are shouting themselves speechless, and the various organizations are sending up fireworks in great quantities. About nine-tenths of all this eleventh-hour activity is wasted energy. The vast majority of the nation's electorate had its mind made up before the "drives" began. The efforts of the party leaders discount themselves. The more violent they become the more amused and uninfluenced the average elector is. He reads the reports of the speeches perfunctorily, if at all, more for the sake of entertainment than anything else, and then concentrates his interest upon the news that one of his neighbors has been arrested for keeping a noisy rooster or has fallen heir to a small fortune. His wife, also a voter in some of the states, glances at the headlines of the political reports and then becomes intensely interested in the announcement that one of her acquaintances is going to spend the winter at Long Beach, California.

The campaigners of both sides are wending up the battle in New York state, held to be the key to victory. New York has forty-five electoral votes, that is, it sends that number to Washington to record the will of the majority in the actual voting for president. These electoral voters exist for this function only and their number is indicated by the number of representatives each state has in the Senate and House of Representatives. Under that system British Columbia would have ten electoral voters, as it has seven members of the House of Commons and three senators. Pennsylvania comes second with thirty-eight, Illinois third, Ohio fourth and Indiana fifth. It is quite possible for a candidate to be elected president with New York against him, but it is not likely, for New York exercises considerable influence upon the neighboring states. Both Republicans and Democrats claim New York, the former with stronger reason and the latter largely as a matter of form. Pennsylvania is conceded to go for Hughes. On the other hand, Indiana, Illinois and Ohio are giving the managers of both parties sleepless nights. There is a big German vote in Illinois and Ohio, while in the former state some 600,000 women will cast their ballots for the first time.

Under the American system of presidential election a minority candidate as far as the popular vote is concerned can become the head of the nation. He might lose in New York and Pennsylvania and by his gains in the less populous states overcome the handicap and win out, although the popular vote cast for him might be less than the vote gained by his unsuccessful opponent. Or he might win in New York and Pennsylvania by a bare majority, yet he would have the whole eighty-four electoral votes. In the present instance the political prophets are all in the air as to whether there will be a close decision or a landslide. Up to a week or so ago the electorate as a whole was singularly apathetic. This has been regarded by the managers of each side as favorable to their particular candidate, by the Democrats as indicating that the electors are satisfied with Wilson and refuse to be disturbed by the appeals of Hughes and Roosevelt, and by the Republicans as showing that the normal two million majority is not likely to shift.

Ottawa retail grocers have demanded that the Dominion government take action against the combines which have taken advantage of war conditions to hoist prices beyond all reason. The Ottawa Citizen and the Toronto World, newspapers which give the Borden government independent support, endorse the suggestion. The World says: "The Dominion government should either grapple with the illegal forces that combine to make prices of food products extortionate or frankly declare that it cannot or will do nothing to redress the grievances of the people. Referring the subject back to the municipalities is simply grotesque. How on earth can municipalities put a stop to the gambling in wheat futures, break-up unlawful combinations in restraint of trade, investigate and regulate cold storage warehouses, and fix the prices of food commodities crude and finished, and the rates to be charged for their storage and transportation?"

The Toronto Telegram is still at its favorite recreation of reflecting upon the loyalty of the western provinces. In view of the fact that the recruiting returns show that the percentage of enlistment west of the Great Lakes is about twice that of the province in which the Telegram is published, the only conclusion that can be drawn is that our contemporary's editor is qualifying for the straight-jacket. If Canada east of the Great Lakes had done as well as the Canadian west the Dominion would have had its half-million recruitment long ago. On the ratio of British Columbia or Alberta, Ontario alone should have enlisted nearly 200,000 men.

Captain Koenig, the bland commander of the Deutschland who has been given the glad hand by certain Americans, says he would not be surprised if a submarine flying the skull and crossbones were to arrive for the purpose of escorting him across the Atlantic. Nor, we surmise, would der captain be shocked if his escort were to do some other business on the side while not engaged in the duty to which it was officially assigned. It even may be that Captain Koenig has made arrangements with an American fleet to be on hand to play its part in the enterprise.

At the Liberal meeting the other evening John Oliver said he would be glad to see Mr. Bowser have a seat in the House. This is heaping coals of fire on the Bowserian dome. A few years ago when Sir Richard McBride expressed a desire to open a seat for Mr. Oliver the most strenuous opposition was offered by Mr. Bowser. The latter, for reasons then best known to himself but now well known to everybody, did not want to see the sturdy tribune from Delta in the legislature. Somehow we feel that Mr. Bowser is going to have an interesting time next session.

The Volks Zeitung says the word has gone forth from the Hun higher command that Russia must be treated more gently with a view to an understanding later on. They will be extending a conciliatory hand to Britain one of these days. But the joke is that none of the Huns seems to understand that the game is plain to all the allies.

It is reported to-day that Mr. Bowser intends to remain in office according to his own sweet will, regardless of the wishes of the electors. That puts the matter up to the Lieutenant-Governor. An exceedingly serious situation is developing through the contumacy of the man upon whom the people of the province have served notice to quit.

Constantine of Greece would not give Yenezelos a chance to settle the issue in a constitutional way, at the polls, and now it appears that the matter must be tried in the hazard of arms. We gather that the allies will stand by and see fair play.

The "note" stage in the Marina incident has not yet been reached.

INQUIRIES FROM HOLLAND TO GERMAN GOVERNMENT

London, Nov. 4.—The Reuter correspondent at The Hague says an official inquiry will be made regarding the Dutch steamship Oldambt, captured by a German submarine on Wednesday and later recaptured by a British destroyer, but afterwards capsized at the Hook of Holland, probably as a result of the bomb exploded by the German prize crew.

The correspondent says an inquiry also will be made concerning other vessels, the steamships Randwyk, Brinwyk and Nordwyk, held up by the Germans. The Randwyk was released immediately, but the other two were taken into Zeebrugge and subsequently released.

FORMER CITIZEN RECOMMENDS PLAN

Alderman Kirk's Proposal at Vancouver Advocated in Letter to Council

The question of financial assistance to the ratepayers in meeting the heavy obligations which arise under present economic conditions has been engaging the city aldermen in various ways for some time and, as already reported, a special committee has been sitting this week in regard to the matter of local improvement obligations.

A former citizen of Victoria, Arthur Lineham, of the Vancouver News-Advertiser, has sent to the city clerk copies of Alderman Kirk's financial scheme, which has been thoroughly discussed in the Vancouver council. The letter will be read in council here on Monday.

This scheme is to borrow the sum of \$5,000,000 in a series of money by-laws, one million at a time, spread over the next five years. At the end of 1921, the taxes having been meanwhile reduced from five to six mills per year, the rate would automatically go up, but the aggregate collected from the ratepayers would be constant, for by that time most of the local improvement charges would have been met, so that the ratepayers could stand an increase in the general rate. Gradually after two years the rate would decrease, and the liability be extinguished 25 years hence.

Mr. Lineham points out that any scheme which would enable people to retain their property under present difficulties must be worthy of consideration, and hopes Alderman Kirk's idea would have the attention of the aldermen.

Vancouver already exercises a privilege of borrowing against arrears of unpaid taxes, and although the same power has now been given to municipalities under the Municipal Act, the scheme has not been exercised yet. Hence the alternative proposal outlined above. Doubtless the correspondence will be referred to the finance committee for attention.

At this meeting Alderman Todd's motion to throw open the meetings of the special committee on the tax situation to the public will also come up for consideration.

HIGH SCHOOL PUPILS

Board Will Be Recommended to Receive Oak Bay Children Until Christmas.

It is understood that until the Christmas vacation, if the matter of the attendance of Oak Bay students at the city high school is not settled in the courts before then, the children whose eviction from school gave rise to litigation will not be interfered with.

A recommendation to that effect, it is stated, will be made to the school board, or, rather, to the board of governors of the Victoria college at its next meeting by Chairman Jay and Dr. E. B. Paul, municipal inspector of schools.

An Exceptional Sale of Beautiful Quality French Voile Waists--Monday at \$1.75

Regular Values \$2.75 to \$6.75

It would be impossible for us to exaggerate the quality of these Waists, so beautiful and refined are they. The all pure white French voiles that are used are of the finest manufacture. The styles, too, are handsome. Many are daintily embroidered and trimmed with fine pin tucks, lace and pearl buttons. They are new and fresh, just out of their boxes, and it seems almost ridiculous to offer them for sale at such a low figure. Only a very special trade event could make such an offering possible. In the regular way these Waists would sell for from \$2.75 to \$6.75. You have your choice to secure one Monday morning at \$1.75

Samples of This Offering Can Be Seen in Large Window on View Street. Sale Will Start Sharp at 8.30 a.m.

Blood was like Water Anaemia

You cut your finger and the wound is slow to heal. The blood is watery and fails to form a clot. The lips and gums are pale. You are anaemic.

This condition is best overcome by using Dr. Chase's Nerve Food. In this food cure there are combined in concentrated form the elements that go to form new, rich, red blood.

The appetite is sharpened, digestion improves, color and strength return, and you rid yourself of weakness and many annoying derangements.

ISLAND PEOPLE ARE INTERESTED IN VISIT

Final Arrangements for Excursion to Be Made Monday

A great deal of interest is being taken in the forthcoming excursion of Victoria business men to different points on Vancouver Island over the P. & N. railway. Yesterday afternoon Wm. A. McAdam, secretary of the Duncan Board of Trade, called upon Secretary Elworthy to get particulars in order that preparations may be made at that point to meet the party and give them a becoming reception. The Duncan board has 70 members, and judging by the reception they recently gave the Victoria Automobile Association, they are quite capable of making a good showing when they try. The interest shown by the Duncan board is particularly encouraging when it is seen that no official intimation has yet been given that the local party is about to make the trip.

The secretaries of the different public bodies are being asked to let the board of trade secretary know how many of their members will take in the excursion. The bodies communicated with have been the Bankers' Association, the Island Automobile Association, the Manufacturers' Association, the Real Estate Exchange, the Retail Merchants' Association, the Rotary Club, the Vancouver Island Fire Underwriters and the Victoria and Island Development League.

The final arrangements will be made by the sub-committee on Monday afternoon when reports should have been received in regard to the number likely to avail themselves of the opportunity of going with the party. It is necessary in order to secure the special train that at least 70 people buy tickets at \$7.50 each, the same to include a dinner at Duncan on the return trip. Any one, whether in business or not, who would like to go is asked to communicate at once with the secretary of the board of trade.

PRICES INCREASED

New Retail Scale Applies to Case Liquors and Mixed Drinks.

Owing to the constantly increasing wholesale cost of liquors the hotels have found it imperative to advance the prices to the retail consumer. The following scale goes into effect on Monday morning:

Draught Scotch (choice) whisky, 15c, 2 for 25c; case Scotch whisky, 20c, each drink; draught brandy (choice), 15c, 2 for 25c; Hennessy and Martell XXX brandy, 25c, per drink, pony, 15c; Canadian rye, 15c, 2 for 25c; gins, all brands, 15c, 2 for 25c; Bass's ale and Guinness's stout, pints, 30c, each, nips, 20c, each; American beers, pints, 30c, each; gin flizzes, 20c, each; cocktails, 20c, each; liqueurs, 20c, each; all egg drinks, 25c.

The increase in the retail prices is applied to case liquors and mixed drinks, as choice draught liquors, gins and Canadian whiskies will remain the same, namely, 15 cents, or two for 25 cents. There will be no increase in the price of beer, which remains at 5 cents. Notwithstanding that since the war the prices of liquors have increased from time to time, the vendors did not raise prices to the retail consumer, and this change in scale is only affected now because of sheer necessity. It is understood that the increase is common throughout the province. Vancouver hotels and bottling houses increased the scale of charges some time ago.

DAY NURSERY MEETING

Matron's Monthly Report Shows 605 Children to Have Been in Residence During October.

The regular monthly meeting of the Day Nursery was held on Thursday, Rev. William Stevenson in the chair. The matron's report showed the number of little residents during October to have been 605. The date of the day nursery tag day was set for November 29.

The thanks of the committee were expressed to the following who had sent gifts during the month: Sandwiches and cake, Queen City school, Young Osborne, Beacon Hill school, Young People of the Metropolitan church; pears from Mrs. Barnard, Mrs. Goodacre, Mrs. St. Clair, Mrs. Day; vegetables, fruit and bread from the Baptist church, Douglas street and the Mission, Obed avenue; candy and decorations, Miss L. Christie and Mr. Genn; clothing from Mrs. Ward and her sister and several friends.

A Frightful Death!

Suffocated in Asthma Attack

Every sufferer from asthma knows the terror, the abject fear, that overcomes them when struggling for breath. The old-fashioned remedies may relieve, but never cure. Best results come from Catarrhazone, which cures asthma after hope is abandoned. It's because Catarrhazone kills the asthma germ that it cures. Choking spells and labored breathing are relieved, suffocating sensations and loss of breath are cured. Every trace of asthma is driven from the system, and even old chronic experience immediate relief and lasting cure. Equally good for bronchitis, throat trouble and catarrh. The large one dollar outfit includes the inhaler and lasts two months, sold by all dealers, or from the Catarrhazone Co., Kingston, Canada.

The monthly meeting of the Florence Nightingale Chapter I. O. D. E. will be held next Monday at headquarters at 2:30 and at 3 p.m. Members are particularly asked to bring in all socks and shirts for field comforts, as they are required for immediate packing.

"One of the Best"

ONE of the most distinguished actuaries in America has pronounced The Mutual Life of Canada to be one of the best managed companies on the continent.

The result of good management is good dividends—this is the final test of the life company. It is not high interest alone, but high interest combined with low expense, that creates dividends.

Mutual Life dividends are paid in any one of three ways—in cash, by a reduction of the amount of the premium, or by an increase in the amount of insurance, all these being of the same actual cash value.

It follows that one of the best investments a man can make is to secure an endowment policy in the Mutual payable to the assured on maturity. Under these policies it frequently turns out that splendid interest is realized in addition to the protection.

Not only does the Mutual excel in profits, but the terms of its policies are most liberal and include every modern feature; a Mutual Life policy is one of the finest securities a man can hold.

ECONOMY CHAT

Under present conditions PAPER GOODS offer enormous possibilities for thriftiness. When doing your shopping avoid demanding unnecessary quantities of wrapping paper and bags, or better still, carry a shopping bag. Should the delivery man leave egg carriers at your house, don't burn them. Save them till he calls again.

It is not any single item which makes a noticeable difference, but many careless and continued extravagances do much to increase the cost of living.

The following is the October report of the Canadian Patriotic Fund, British Columbia provincial branch, showing contributions received, amounting to \$51,910.03—\$40,771.61 from provincial points, and \$11,138.42 from Victoria city. Contributions received from the following points are appended after the names:—Agassiz, \$440; Armstrong, \$260; Atlin, \$834; Alberni, \$27.25; Abbotford, \$250; Alexis Creek, \$88; Alert Bay, \$40.35; Anyox, \$2,200; Bella Coola, \$17.50; Bonnington Falls, \$9; Chase, \$259; Clinton, \$146.95; Cranbrook, \$1,211; Creston, \$100; Chilliwack, \$425; Enderby, \$150; Fairview, \$13.31; Fernie, \$2,214.15; Fort Steele, \$25; Fraser Mills, \$400; Field, \$24.50; Golden, \$400; Greenwood, \$917.48; Hazelton, \$500; Hope, \$35.55; Kaslo, \$1,004.06; Kelowna, \$222.85; Kamloops, \$1,000; Ladysmith Collieries, \$540; Ladysmith, \$86.75; Langley, \$499.50; Ladner, \$500; Lytton, \$253.50; 150-Mile House, \$39.15; Mission, \$1,000; Maple Ridge, \$27.10; Nanaimo, \$1,500; Nelson, \$1,000; Nicola Valley, \$500; New Denver, \$94.89; New Westminster, \$6,358.29; Port Coquitlam, \$100; Penticton, \$477.94; Princeton, \$1,052.33; Phoenix, \$1,400; Powell River, \$424.55; Quesnel, \$243.30; Revelstoke, \$500.12; Rossland, \$3,147.40; Rock Creek, \$10; Salmo, \$200; Salmon Arna, \$21.75; Silvertown, \$2,402.66; Sorrento, \$17.50; Summerland, \$167.75; Strathcona Park road employees, \$9.50; Slocan City, \$35.79; Trail Smelter, \$4,000; Trail, \$566.53; Vernon, \$639.68; Victoria, \$11,138.42; Waneta, \$37.50; Windermere District, \$100; Westbridge, \$18.50; West Kootenay (Police District), \$24; Yale, \$18. Total, \$51,910.03.

The disbursements for the month of September amounted to \$132,364.32, provincial points, including—Victoria city, being \$62,607.87, and Vancouver city, \$69,756.45," states the report. "There were 6,268 families with 16,421 individuals. Twenty-four points throughout the province were visited by Sir Herbert Ames and the secretary of the provincial branch during the month of October, and the result of the public meetings and conferences with various committees have been most gratifying. Every point visited promised considerably increased contributions for the next 12 months. The greatest satisfaction was expressed at every point at having the privilege of hearing Sir Herbert Ames explain in detail the policy, fundamental principles and the administration of this fund, and we feel encouraged to believe that the \$1,000,000 asked from British Columbia will be forthcoming. The balance of the estimated requirements of upwards of \$2,000,000 will be supplied from the central fund at Ottawa."

AT THE THEATRES

ROYAL VICTORIA.

Blackberry patches, and the broad swimming pools washing up to the lips of mossy banks, fruit orchards, country estates, flower fringed roads, and lastly but not least the charming summer dresses worn by Ruth Roland demand color, so a picture "A Matrimonial Martyr" which is the feature attraction at the Royal Victoria for the last time to-night, was sent to Pathe, Paris laboratories, there to be treated to the tedious and expensive process of Pathe colors. "A Matrimonial Martyr" is a comedy drama in five reels, and is taken in natural colors as stated above, and features Ruth Roland, the charming "star" of so many well known feature picture plays.

A cartoon comedy and travelogue picture make up the balance of an all-round good programme.

PRINCESS THEATRE:

Victoria is having its first pantomime this fall in F. Stuart Whyte's production of "Aladdin and His Wonderful Lamp," which comes to the Princess theatre on Monday, Nov. 13, for one week.

For the first Canadian tour Mr. Whyte has built and assembled a production, and cast that would compare favorably with a London pantomime organization, during their annual Christmas run.

The book and lyrics of the 1916-17 version are by Mr. Whyte, while the musical score is the collaboration of Pierre Bayard, Clive Hamilton and Sydney Blythe, three of the best known English composers, whose work has long been identified with similar productions in the Old Country.

The cast is headed by Miss Zara Clinton as Aladdin, Billy Oswald as General Ram Fuse and Harry Holland as the Widow Twankey. They will be supported by a carefully selected company of twenty-five experienced pantomime artists.

The piece is divided into five acts or scenes, each one a revelation of beauty and lavish expenditure, while the costumes are a riot of coloring and animation.

PANTAGES THEATRE.

Beginning with the matinee next Monday, the Pantages theatre management will offer a most unusual line of entertaining features that will please the discriminating vaudeville patrons that daily throng the popular playhouse. The new bill is composed of six vaudeville features and a comedy motion picture.

First on the list comes the big dancing novelty presented by Wm. Horelick & Co. in a ballet divertissement entitled "The Gypsy Camp," in-

roducing some remarkable whirlwind dancing.

Barry and Wolford, a pair of entertainers of reputation, will offer a singing novelty number that is always sure to appeal to most people; they are the originators of their own songs and render them in a way peculiarly their own.

Santucci, the musical marvel, has been termed the wizard of the accordion and justly so, for he can play that instrument as no one else can.

A big added feature will be the appearance of Ship's Comedy Circus, a wonderfully trained troupe of dogs, ponies, monkeys and cats. This act is said to be full of interest and pleasure for young and old alike. It will be one of the big hits of the bill.

Howard and Fields and their Dining Car Minstrels will present a novel singing and comedy patter offering that is sure to win the approval of the most blasé of theatre-goers.

Frear, Gage and Frear, a trio of young men, will present "Baseball Idiosyncrasies" which is said to be full of funny situations.

One of the best of the series of Chaplin comedies will be shown on this bill. It is entitled "Police."

Beginning with November 20, one of the most thrilling photo-serials that have been produced will be shown at this theatre. It is called "The Shielding Shadow," by the producers of the "Iron Claw" and is said to exceed even that popular serial in compelling interest.

Every seat in the car was occupied, when a group of women got in. Going through the car to collect fares, the conductor noticed a man who he thought was asleep. "Wake up!" shouted the conductor. "I wasn't asleep," snapped the passenger. "Then what did you have your eyes closed for?" It was because of the crowded condition of the car," explained the passenger. "I hate to see women standing." Exchange.

"I suppose you are saving up for a rainy day." "No," replied Farmer Cornwell. "Out this way we pray for rain. I'm saving up for a drought."—Washington Star.

FIFTEEN SOLDIERS BACK FROM OVERSEAS

Veterans of Fighting in France
Returned Yesterday
Afternoon

There were fifteen returned soldiers on the boat which came in from Vancouver yesterday afternoon. The men, who are suffering with wounds or disabilities of other sorts, were conveyed immediately to the Military Convalescent hospital, Esquimalt, where they will receive treatment until such time as they are able to go to their homes. Motor cars were lent by Miss Johnson, Chief Langley, E. Todd, E. Shaw and M. W. Graham to drive the veterans from the wharf to Esquimalt, and the men were cheered by members of the Returned Soldiers' Association and the Welcome Club as they came off the boat.

There are two Victoria men in the party: Cpl. J. Colling, who left here with No. 2 Tunnelling Company of the Canadian Engineers and who is suffering with shock; and Sgt. William J. Land, who went from here as a member of the 88th Battalion, having had to return from England owing to illness without seeing active service in the firing line. The former has relatives living at 1044 Blanchard street, and the latter's home is at 2605 Shelbourne street.

The other men are as follows: Pte. Appleford, of the 2nd C. M. R., who is suffering from shell shock. Pte. Appleford is married and his home is in Vancouver.

Pte. Bishop, of Lillooet, was a member of the 7th Battalion, and is suffering from a gunshot wound in the leg.

Pte. Gordon Brewster, of Fernie, who went to the front early in 1915 as a member of Princess Patricia's Canadian Light Infantry. Pte. Brewster's mother lives in England. He is suffering with a gunshot wound in the heel.

Pte. Henry James Johnson, 7th Battalion, is suffering with a shrapnel wound in the head. His father is now with the Canadian forces in France.

Pte. James Madsen, Vancouver, left here with the 2nd C. M. R. His mother lives in England. He was wounded in the knee by shrapnel.

Pte. John Maher, of McBride, B. C., went with the 1st Canadian Pioneer, contracted rheumatism in England, and was unable to cross to France. His relatives live in Ireland.

Pte. William Menzies, for some time attached to the 17th Reserve Battalion, is suffering with gunshot wounds in the face. He came from Australia to enlist.

Pte. Mike Mulligan, of the 1st Tunnelling Company, Canadian Engineers, has miscellaneous injuries sustained during service in Belgium. Pte. Mulligan is married, and his wife lives in Fernie. His immediate relatives live in Scotland.

Pte. Percy Neave, 62nd Battalion, was forced to return without seeing active service, owing to deafness. He formerly lived at Kamloops. Mrs. Hall, of London, England, is his next of kin.

In TRAINING

Thousands of men suddenly called to undergo the hardships of winter training find the sustaining power of Oxo Cubes invaluable for supporting health and strength.

Oxo Cubes have a body-building power out of all proportion to their bulk. Many a young soldier, wet through, and physically exhausted by hours of marching or other duties, has had cause to bless the invention of Oxo Cubes.

Oxo Cubes are so convenient and handy that they can be carried on the person without adding to the weight of one's equipment. A cup of Oxo or an Oxo Cube sandwich enables one to go for long hours.

TWO VICTORIANS KILLED IN ACTION

Lieut. Stanford and Pte. Dingsdale Make Supreme Sacrifice; Sgt. McGary Missing

Lieut. Arnold George Stanford, who is reported killed in action, left here with the 30th Battalion under Lieut.-Col. John Hall. He was a sergeant when he first went to France and was given his commission a few months before his death. He was 33 years of age.

SGT. W. P. M'GARY

and came to this city from England seven years ago, being employed as a surveyor by John B. Green. In April, 1914, he joined the Gordon Highlanders and transferred to the overseas service soon after war broke out. His widow and one child reside at 195 Sunny Lane, Oak Bay.

Pte. Joe Dingsdale, who is among the

list of those killed in action, left here two years ago with a draft from the Royal Canadian Regiment. He is a brother of Mrs. T. Stewart, of Shakespeare street, whose husband is with No. 2 Tunnelling Co., Canadian Engineers. A brother of Pte. Dingsdale returned from the war recently and is now at Vancouver.

Mrs. James McGary, 780 Hill street, this morning received a telegram stating that her son, Sgt. William Paul McGary, is reported wounded and missing. Sgt. McGary, who is 24 years of age, left here with the 30th Battalion on February 14, 1916, and after training at Shorncliffe was later transferred to the 16th Battalion, Canadian Scottish. At that time he was a private, but by consistent hard work was given the rank of lance corporal and later was advanced to senior sergeant of the 3rd Brigade machine gun section. He was wounded in the forearm and thigh on June 14. After being at the Wharfedale hospital for a month he returned to his brigade and had spent altogether 37 months in the trenches. He was a prominent member of the K. of P. and Brotherhood of Railroad and Trainmen. At the time of his enlistment he was employed on the E. & N. railroad.

Sgt. Wm. H. Whittingham, reported wounded, left here with the 67th Battalion. He lived in Victoria for about five years before enlisting and was employed by the Standard Steam Laundry. He is married and his wife is in the Old Country. A brother is engaged at the Manitoba news stand, Yates street.

TRENCH FIGHTING

Sergt.-Major Ryder Will Give Course of Instruction at Beacon Hill Park.

Sergt.-Major J. Ryder who, during the summer, has been at Vernon giving practical instruction in grenade and trench fighting to the officers and men of the 158th, 172nd and 225th Battalions, is leaving Vancouver this week-end for this city where, at Beacon Hill park, he will conduct a similar course of instruction for the officers and men of the 143rd Battalion. Sergt.-Major Ryder gained his practical knowledge in active service in France and later became chief instructor at the Canadian Bombing School at Shorncliffe. Later he will come to Vancouver and give a course of instruction to the 221st Battalion at Hastings park.

ANNOUNCEMENTS IN DISTRICT ORDERS

Colors for Overseas Units Must Be Approved by Militia Headquarters

District orders for the week issued from Work Point gave a number of regulations and transfers.

It is notified for the information of all concerned that when submitting Militia Form B 287 for the appointment of gentlemen who may have undergone probationers' course full particulars of certificates acquired should be given in columns 8 and 9 of the Militia Form R 287 in question. The giving of this information will facilitate the gazetting of appointments in The Canada Gazette and often obviate errors in gazetting such gentlemen as provisional lieutenants.

It is notified for general information and compliance that on no account are Indians to be enlisted without obtaining the consent of the chiefs of tribes to which the men belong. The consent of parents must also be obtained in the case of minors who wish to enlist.

Lieut. J. F. Christie, 11th Regiment, is granted leave of absence for four weeks, with effect from November 1, 1916.

Lieut. (temporary Capt.) H. H. D. Hemmel, 88th Regiment, Victoria Fusiliers (attached R. C. R.), is detailed for duty as orderly officer at Work Point Barracks from October 30, 1916, during the absence of Capt. A. C. Tweedie, 80th Regiment (attached R. C. R.).

It is notified for the information of all concerned that authority will not be granted for the presentation of colors to C. E. F. units until the design and a description of the colors in question have been forwarded to militia headquarters for approval.

District Order No. 597 of October 20, 1916, is amended as follows: Sgt. J. A. Little, 162nd Regiment, is attached to No. 6 Station, R. C. R., for rations and discipline while employed on instructional duty at the Royal School of In-

BAYONET INSTRUCTIONS

Specific Orders Given Regarding Practice in Physical Training.

The attention of all concerned is directed to the following instructions in connection with bayonet fighting and physical training, issued in the military orders from Work Point:

It is essential that the physical training tables should not be mixed and the sequence of the exercises in each table be adhered to. The book should therefore be carried on parade in case of need.

It is observed that regimental instructors generally when giving physical training tables to their classes either read the exercises from the book or constantly refer to the books.

The tables should be memorized by the instructors and it is the duty of the officer in charge of bayonet fighting and physical training in the unit

to see that this is done and conduct practices with this end in view. See organization B. F. and P. T. in battalions, C. E. F., IV.

Importance is attached to the proper sequence of lessons and practice in connection with Bayonet training. The assault—practice—may, however, be taken up by men who have completed lesson 3, as this enables them to better appreciate the need and use of the lessons and practices as laid down.

W. C. T. U. "TAG DAY"

Collections Totalling \$193 Taken Yesterday; Rain Interfered With Work.

W. C. T. U. "Tag Day" results were seriously handicapped by the bad weather, which prevented the taggers from keeping constantly on the beat. Quite a number of ladies turned up at headquarters, the New Methodist Laundry, Douglas street, early yesterday morning, however, and it was only the drenching rains which prevented them from having better results than they did. Shoppers and pedestrians were naturally fewer than would have been the case on a bright day, but in spite of this four or five of the ladies succeeded in collecting quite a neat sum, and the total from all the boxes amounted to \$193 at the end of the day.

Among the ladies who assisted were Mrs. Wm. Grant, Mrs. H. H. Jones, Mrs. Mitchell, Mrs. Shepherd, Mrs. Davidson, Mrs. Hart, Mrs. Joffile and the Misses Moore, Paterson, Lohman, Eilers, McEwan, Croft, Dill, Wright, Dyson, and Rogers.

The proceeds are for the general W. C. T. U. fund.

An octogenarian who is in frail health and somewhat deaf was in bed when a bomb burst not far from his house. A son approached him, finding him wide awake, feared he would be unduly alarmed, and asked: "Did you hear a noise?" The old man looked up with wide eyes. "I should think I did," he exclaimed, with irritation. "What a time it is to be taking in coal!"

ACTION BY RADIO STATIONS SAVED LIFE

Five Men and a Woman Rescued From Barge by G. T. P. Steamer Prince John

DONALD D. WAS ADRIFT IN CHARLOTTE SOUND

Tug Dola, Which Battled Bravely With Storm, Forced to Run for Bunkers.

The action of the naval radio stations was responsible for the saving of five seamen and a woman from the barge Donald D., now adrift or ashore in northern waters following a battle with heavy weather in Queen Charlotte Sound. The steamship Prince John, Captain A. M. Davies, gets the credit for bringing the men and the woman off the barge and taking them into Prince Rupert, and the efficiency of the naval stations is happily responsible for the action of the steamship.

The Donald D., in ballast from Anyox, was in tow of the tug Dola and was southbound. A big westerly sea prevailed in Queen Charlotte Sound, and on top of this case a southeast to easterly gale. The Dola, Captain Verge, battled gallantly with the storm and had nearly won across the Sound when the towline parted. Every effort was made to get other lines aboard the barge, but they did not hold. The Dola was running short of coal, owing to the lengthy passage across the Sound, and had to abandon the hulk and make for Alert Bay, from which point Captain Verge telegraphed his owners. They immediately took up the matter with Captain Robertson, agent of the department of marine and fisheries here, and he promptly passed on the case to the naval radio superintendent. The alarm was shot out through the atmosphere, and yesterday afternoon came the reassuring message that the G. T. P. steamship Prince John had received the call, diverted her course off Eagle Island and had ranged alongside the Donald D., which had drifted some 30 miles, removing the five men and the woman, who were landed at Prince Rupert.

The Dola went to Alert Bay and coaled and then went after the barge. She has not reported as yet. The John altered her course off Eagle Island, taking the outside passage from Queen Charlotte Sound to Millbank Sound with a view to picking up the Donald D. The Prince John sighted the barge about 20 miles west of Cape Calvert tossing badly in a heavy westerly swell. A strong southeast wind was blowing and the abandoned vessel appeared to be in a bad plight.

For some time the Prince John stood by, and at 3:30 p. m. yesterday succeeded in getting the barge aboard the barge, but such tremendous seas were running that the vessel broke away again. Capt. Davies manfully stayed by the helpless barge with his human freight aboard, and at 5:15 p. m. succeeded in rescuing the five men and one woman composing the crew of the barge. The woman, it is presumed, was the wife of one of the men serving on the Donald D.

The gallant rescue by the Prince John was effected three miles off Fitzroy Reef, and after all had been taken aboard the barge was abandoned. The Prince John then proceeded on to Prince Rupert via Kitimat.

ADELAIDE FOR OVERHAUL

The steamer Princess Adelaide will be taken on the Gulf run for a day or two next week to be hauled out for cleaning and painting.

ERA OF SHIPBUILDING ACTIVITY ON COAST

H. F. Bullen Reports Phenomenal Demand for New Steel Tonnage

H. F. Bullen, of the British Columbia Salvage Company, returned to Victoria aboard the Sol Duc this morning after making a trip as far south as San Francisco. He has nothing further to report regarding progress in connection with the salvage of the steamer Presidente Estrada Cabrera, formerly the Sesostris, which is being undertaken by Capt. F. C. Stratford with the steamer Pilot at Ocos, Guatemala. Capt. W. H. Logan, of the London Salvage Association, met Mr. Bullen while he was in the south, and proceeded on his way to Ocos to look over the salvage operations.

Being an old shipbuilding man himself, Mr. Bullen naturally took a great interest in the phenomenal development of the industry at various ports touched at during his travels. He says remarkable shipbuilding activity prevails all along the coast. The more important firms such as the Union Iron Works and Moore & Scott, at San Francisco, and the Seattle Construction & Drydock Company and the Eddy-Skinner Corporation, at Seattle, he says, are flooded with orders for steel ships, ranging anywhere up to 10,000 tons. Never before has there been such a demand for new tonnage on this coast, and British Columbia is bound to reap advantages by reason of the phenomenal development of shipbuilding on the Pacific seaboard.

Accompanying Mr. Bullen on the Sol Duc was Capt. J. W. Troup, who has been making one of his periodical trips to the Sound.

NEW TREATMENT THAT KNOCKS RHEUMATISM

50c BOX FREE TO ANY SUFFERER

Up in Syracuse, N. Y., a treatment for rheumatism has been found that hundreds of users say is a wonder, reporting cases that seem little short of miraculous. Just a few treatments even in the worst cases seem to accomplish wonders even after other remedies have failed entirely. It seems to neutralize the uric acid and lime salt deposits in the blood, driving out the poisonous clogging waste from the system. Soreness, pain, stiffness, swelling just seem to melt away and vanish.

The treatment first introduced by Mr. Delano is so good that its owner wants everybody who suffers from rheumatism or who has a friend so afflicted, to get a free 50c package from him to prove just what it will do in every case before a penny is spent. Mr. Delano says: "To prove that the Delano treatment will positively overcome rheumatism, no matter how severe, stubborn or long standing the case, and even after other treatments have failed, I will, if you have never previously used the treatment, send you a full size 50c package free if you will just cut out this notice and send it with your name and address, asking to help pay postage and distribution expense to me personally."

P. H. Delano, 272 Wood Bluff, Syracuse, N. Y. I can send only one free package to an address.

BIG LOCAL CARGO ON N.Y.K. LINERS

Combined Shipments on Shidzuka and Inaba Amount to 1,462 Tons

Oriental cargo totalling 1,462 tons is consigned to Victoria aboard the N. Y. K. liners Shidzuka Maru and Inaba Maru now en route here from Yokohama, according to word received today by W. R. Dale, local manager for the Great Northern railway. The Shidzuka, which left Yokohama October 26, has 486 tons, and the Inaba, which left the same port October 28, is bringing in 976 tons. The latter shipment is the largest that has been consigned to Victoria in many months and clearly illustrates the thoroughness with which the Japanese transportation concerns have gone after the business offering for British Columbia ports.

Practically the whole of the carrying trade between the Orient and Victoria is now handled by the Nippon Yusen Kaisha and Osaka Shosen Kaisha. Shipments arriving here by vessels of British lines plying in the trans-Pacific trade have decreased to a remarkable extent since the outbreak of the war, while, on the other hand the local cargoes handled by ships of the regular Japanese lines have correspondingly increased.

This more particularly applies to the Nippon Yusen Kaisha, whose vessels do not touch at Vancouver. All Vancouver freight carried by this line is discharged here and forwarded to its destination by coastwise steamer. In addition to cargo for this port the Shidzuka has 79 passengers, while the Inaba has 15. There are also 130 passengers on the Shidzuka and 139 on the Inaba for Seattle. The Shidzuka's local passengers include 45 Chinese, who will be landed at William Head along with the remainder of the steamer. The Shidzuka is due on November 10 and the Inaba November 12.

The O. S. K. liner Hawaii Maru, which left Yokohama October 28, is due here November 10. She has a good passenger list and 200 tons of cargo for Victoria.

FRISCO SHIPPING NEWS

San Francisco, Nov. 4.—After repairs here the steamer Caroline left for Port Angeles yesterday. The vessel was in collision with the Thomas L. Ward several days ago and returned to this port for repairs.

Cargo from infected ports with no certificates, which necessitated holding the steamer for a long time by local quarantine officials, and a delay in docking of over two hours, all were a part of the arrival of the Java-Pacific steamer Tjinsondari. The vessel, finally warped into her berth with the aid of three tugs and two launches after two hours of effort. Coming in from Java ports, Macassar, Manila and Hongkong, the Dutch steamer brought a total of 333 passengers and 12,000 tons of cargo.

Charter-Japan steamer Tensu Maru, 2,637 tons; merchandise; from Puget Sound to Vladivostok; private terms; by Mitsui & Co. (December).

Japanese steamer Yubari Maru, 3,055 tons; cotton and steel, from San Francisco for Yokohama and Kobe; private terms; by Mitsui & Co. (December).

Japanese steamer Yuki Maru, 1,322 tons; will be laid on the berth for Vladivostok (December loading); by Struthers & Dixon.

DEPARTURE POSTPONED.

The sailing of the C. P. O. S. liner Metagama, scheduled from Montreal for Liverpool Nov. 18, has been postponed until Nov. 23. The Cunard liner Anania, slated to sail from New York for Liverpool Nov. 10, will now leave Nov. 18.

WHALING TENDER HERE

The whaling tender Gray, of the Victoria Whaling Company, is in port from Aberdeen, Wash. She is blowing down her boilers while in port and early next week will steam for Kyquoot and Naden Harbor to load fertilizer for San Francisco.

AT SAN SALVADOR PORT.

La Libertad, San Salvador, Nov. 4.—The British warship Rainbow anchored in the harbor here. It is reported that the warship sunk a German steamer off Bahia Salinas, Costa Rica, but officers of the Rainbow would not confirm the report.

JAPANESE VESSELS ARE IN EVIDENCE

Four Out of Five Liners Nearing Port Have "Rising Sun" Fluttering at Taffrail

After a considerable period of comparative inactivity at the outer docks several deep-sea ships are shortly due to put in an appearance. The Japanese flag is particularly conspicuous inasmuch that four vessels inbound from the Orient are flying the Nippon colors as against one under the British ensign.

The first of the fleet will reach port tomorrow night, when the Osaka Shosen Kaisha liner Mexico Maru reports she will make William Head quarantine station. It is not expected that she will make the station before official sundown and in that case she will not discharge cargo here until Monday morning. The Mexico Maru terminated her last outward trip at Moji and was doubled back ahead of the liner Hawaii Maru, the latter having been put back three weeks owing to detention at Yokohama.

The Hawaii Maru is now on her way across the Pacific from Hongkong and Yokohama, but it is not expected that she will show up here before the middle of the month.

Two Nippon Yusen Kaisha liners are running particularly close. The Shidzuka Maru is due here from Hongkong and Yokohama next Thursday night and right in her wake is the liner Inaba Maru from Kobe. The Inaba may succeed in reaching port on Saturday next.

On Tuesday, November 14, the Blue Funnel liner Ixion is looked for from the Orient with a full cargo for distribution at North Pacific ports.

The Canadian-Australian liner Makura, which is reported to have sailed from Auckland on time, is due to reach this port Thursday, November 16, and two days later the giant C. P. O. S. liner Empress of Russia will arrive from Hongkong and Yokohama.

The Blue Funnel liner Proteus is due to leave here next Friday laden with a capacity cargo for points in the Far East.

SPORTING NEWS

NEW BOSTON OWNERS ARE THEATRICAL MEN

raze, Youngest Magnate in Majors, Commenced Career Selling Programmes

Formal notice of the sale of the old champion Boston American League Baseball Club has been sent to the owners in the junior organization President Ban Johnson, the Johnsons following the announcement made by Joseph Lannin that he had sold the club to Harry H. Frazee, of New York, and Hugh Ward, Philadelphia.

The club is not officially sold until a deal is ratified by the league as a whole, said Johnson in Chicago. Final action on the matter will probably not be taken for a couple of weeks. There will be no hitch in the transaction, however, it is understood. The sum of \$875,000 was realized by Lannin for his holdings in the club. In fact, not disclosed at the dinner party where he made the formal announcement of the sale, was given out privately, but officially, after the dinner left the table. Apparently, it was a good dinner and good things the side will sometimes cause issues to war.

The news of the sale was broken by Lannin at a dinner given in Boston to a new owners and to a party of newspapermen. The retiring head of the club said that the papers had been read but a half hour before the inner bell rang.

Frazee and Ward are both identified with theatrical interests, the former principally owner of the Cort Theatre of Chicago, and the Longacre Theatre of New York. The new owners have few details of their plans for the time, but did say:

"When we went into this thing we did not buy a cheap team. We bought champions. We were interested in the club only because they are champions and would not have considered them 'wrecked'."

Frazee will take direct charge of the club's affairs, it was said. The Red Sox are at present without a manager. William Carrigan, who has guided the team for the last three years, having announced his retirement at the conclusion of the world's series games last month. Frazee said he would hold the position of manager open for Carrigan if he hoped he would consent to lead the team another year. The executive staff of the club will be held intact.

The sale includes the franchise, player contracts and the real estate at Fenway park.

Lannin has owned the team three years and during that time the Red Sox have won two world's series. After announcing the sale Lannin said he ended to enter the hotel business in Boston, where he already has large real estate holdings. He is also owner of the Hotel Garden City, Long Island, and has a controlling interest in the Hotel Metropolis of the International League.

Frazee's acquisition of part ownership in the Red Sox club probably makes him the youngest baseball magnate in the country. He was born in Erie, Ill., June 29, 1889. He managed a baseball team in that city when he was 21 years old, but neither he nor his father had been connected with major league baseball before.

Frazee started his life's career in the theatre, managing the old Grand Opera House, Peoria, Ill. Then he went to the stage, as a helper and actor.

Shortly afterwards he was placed in charge of a booking agency, signing up vaudeville and "legit" acts—all on small time, at that time. Frazee was manager of the old opera house in Seattle. Frazee's appearance was with "The Gamblers Daughter," at Dad Russell's old theatre, Seattle. Frazee was doing something all the time. He was aspiring. The next big season that came to notice was

when Frazee came out as manager of Jim Corbett in "Gentleman Jim." Later, or just on the eve of the Jeffries-Johnson world's championship battle at Reno, Frazee took out Jim Jeffries and Frank Gotch and exhibited them wherever folks would pay the price.

MILITARY TO RUN BOUTS IN MONTREAL

Tom Fowler Will Meet Billy Miske Next Monday; Lewis and Badoud Later

New York, Nov. 4.—Major Blake, of Montreal, has solicited the aid of Chairman Fred Wenck of the State Athletic Commission to book a number of boxers to perform at the proposed benefit boxing shows to be held in Montreal.

Chairman Wenck gave the Canadian representative a list of the best of the boxing talent in New York and to co-operate with the Canadian authorities in arranging a number of bouts. It is planned to hold the first of the bouts next Monday at Montreal, and the boxers at the first show will probably be Tom Fowler and Billy Miske, heavyweights.

The second bout will probably bring together Albert Badoud and Ted ("Kid") Lewis, and it is expected that the latter bout will be a big attraction in Canada, as Badoud is the French middleweight champion and Lewis is an English boxer with a good claim to the American title at his weight.

AUSTRALIAN CHAMP IS AFTER KILBANE

New York, Nov. 4.—One of the best featherweights in the Antipodes, Charles Simpson, accompanied by his manager, Matt Daly, has arrived in New York. Simpson welcomes a bout with champion Johnny Kilbane. Daly avers he has backing to the extent of \$5,000 that the Australian can and will whip Kilbane if the American gives him a chance.

Daly is the man who was supposed to have brought Les Darcy to this country. Daly believes that Darcy will not be able to come here for another year. "Simpson is a world-beater, take it from me," said Daly to-day. "He is a little fighting machine. His wonderful record of the last two years speaks for itself. He has whipped everybody in the Antipodes."

Daly used to box around with Bob Fitzsimmons many years ago. Simpson emigrates from Melbourne, Australia.

ARENA OPENING IN SPOKANE A SUCCESS

Skating has got away to a good start in Spokane. Frank Patrick, president of the Coast Hockey League, has received a wire from Lester Patrick, in which the latter stated that the official opening took place under most auspicious conditions, which augur well for the future success of the sport in the Inland Empire. Pete Muldoon was on hand and entertained the Spokane enthusiasts to an exhibition of fancy skating. According to Lester's wire, the skating enthusiasts of the Inland Empire are looking forward to the opening of the hockey season, and he expressed the opinion that Spokane will be one of the best cities on the circuit.

WILL PLAY HOCKEY.

Billy Davies, superintendent of the V. I. A. A., has communicated with the Seattle Athletic Club in regard to the playing of a few hockey games in the Sound City this winter and is confident that some fixtures can be arranged. There is still some good hockey material in the city and a good team could easily be gotten together.

LANGFORD WANTS TO MEET JESS WILLARD

Advances Reasons Why He Should Have a Chance at Heavyweight Title

Sam Langford is after one Jess Willard with all the words at his manager's command, and his manager, Joe Woodman, is generally recognized as a commander-in-chief when it comes to coaching and hurling challenges.

Sam recently returned to the States from new if not profitable experience in the Argentine and other South American countries is simply aching for a whirl at the heavyweight title and hoping that Jess will overcome his aversion to fighting colored men, has begun to condition himself for a campaign that Woodman says will land him at the top of the heap if Big Jess will come across with an acceptance of his challenge.

Sam and Woodman both point out with tense index fingers that Willard won his title from a colored man and therefore ought to defend it against a colored man if the challenger is a man of calibre.

Manager Woodman has this to say on the subject:

"It is not my purpose to reflect on the ability of the present world's champion, but I am not alone in my judgment that Sam Langford, trained for the task, can beat Jess Willard. I know Langford could have beaten Jack Johnson at any period of his career. It is an absurd and untenable position for a world's champion to draw the color line, especially when he was able to gain professional honor and distinction by a victory over a somewhat debilitated champion, a colored man."

"Willard should get busy as world's champion. The time for him to get back into the game is overdue. The fight fans are clamoring for him to defend his title. Sam Langford is the most logical opponent among the present crop Willard has to fight, and fight a colored man is 'very baby' stuff when it is remembered that Willard did not draw the color line when he had an opportunity to annex the title."

"As to the rest of the heavies, we are offering to meet any of the pretenders, but Langford's foremost ambition is for an issue with Jess Willard."

Woodman goes on to say that Langford will meet Willard under the champion's conditions, provided there is a semblance of reasonableness to them, and Sam would like to get a whack at the title before he gets too old to do himself full justice in the attempt. Willard will have fulfilled his circuit contract on November 11, and after that date he will be in a position to re-enter the flat game when and where he pleases.

The champion recently has expressed a desire to enter into an attractive match or two, after which he will be content to take to his expansive acres in the West and settle down to the simple life. Fred Fulton has been considered the logical contender for the title, and the big Minnesota's showing against Andre Anderson a few nights ago at Eau Claire, stamped him as a greatly improved scrapper. There are those among fight fans, however, who do not believe Fulton ever saw the day he could trim Sam Langford. Why not a match between Fulton and Langford as an eliminator?

GAME POSTPONED.

The soccer game scheduled for this afternoon between the Retailers and the V.I.A.A. at the North Ward Park has been indefinitely postponed. The Retailers could not field a team, some of their players being ill, and Billy Davies, manager of the V.I.A.A., consented to a postponement rather than take the game by default.

SOUTH AFRICANS MAY PLAY IN CALIFORNIA

Michigan University Proposes to Send Rugby Players to the South

Stanford University, Cal., Nov. 4.—The University of Michigan proposes to send a team of South African rugby players to the Pacific coast to compete with the university and club teams of California, according to a letter received by Graduate Manager Earl C. Behrens from Floyd A. Rowe, director of athletics at Ann Arbor.

According to Behrens, if present plans materialize, the trip west will be made during the Christmas vacation. The team will be composed of twenty-five players, all South Africans, eight of whom were members of the same fifteen that won the last football championship of South Africa. This is the first time in two years that an attempt has been made to bring a distant rugby team to the coast, the first foreign football visitors being the All-Blacks, of New Zealand, and "Waratahs," of Australia.

CANADIENS STILL AFTER HOBEY BAKER

George Kennedy, owner of the Montreal Canadiens, is still after Hobey Baker, the former Princeton Hockey star, who is now with the St. Nicholas club of New York. He says his offer of \$2,000 still holds good, and he has reason to believe he may land the big Yankee star this season. Baker is a chauffeur for Millionaire Loeb, of the New York banking house of that name, and efforts are being made to secure a "leave of absence" for him during the winter. Kennedy declares Baker would be a brilliant luminary in the National Hockey Association, possessing, as he does, all the physical qualifications and skill. Asked as to his courage, Kennedy says a gamer man never stepped on the ice.

PLAY COMMENCES IN BILLIARD TOURNEY

Two games have been played to date in the handicap billiard tournament which is in progress at the Metropolitan billiard parlors. Warren (rec. 40) defeating Cameron (rec. 25) to 14, and Cook (rec. 40) defeating Kilner (rec. 25) to 22. Most of the first-class cue artists of the city have entered and some keen competition will ensue before the winners have been decided. The following is the draw for the first round:

Cameron (rec. 40) plays Warren (rec. 40); Pearson (rec. 40) plays Hamilton (rec. 40); Dunn (rec. 50) plays Kelly (rec. 40); Scott (rec. 25) plays Frazier (rec. 40); Caskey (rec. 25) plays Heathcote (rec. 25); MacKenzie (rec. 40) plays Robinson (rec. 25); Cronin (rec. 40) plays Grute (rec. 40); Kidwell (rec. 50) plays Ramsay (rec. 40); Patton (rec. 40) plays Marsh (rec. 40); James (rec. 40) plays Kilwin (rec. 40); Cook (rec. 40) plays Kilner (rec. 25); Reed (rec. 25) plays Baker (rec. 40); Burns (rec. 40) plays Hough (rec. 40); Kelt (rec. 100) plays Pendlebury (rec. 25); Lunnax (rec. 50) plays Newman (rec. 40); Woodcock (rec. 100) plays Porter (rec. 25).

O'NEILL MAY GET A. A. PRESIDENCY

Chicago, Nov. 4.—Norris L. "Tip" O'Neill, former president of the Western League, has been suggested as a candidate for the presidency of the American Association, it was learned here yesterday.

President Clivington's term expires this fall, and there is said to be opposition to his re-election. Thomas Hickory, of St. Paul, also has been mentioned to succeed Clivington. The election is to be held at the annual meeting which will be held here next month.

AFTER COAST STAR

CAPT. GEORGE McNAMARA

The well known eastern hockey star who is with the 228th Battalion, is busy recruiting players for his hockey team which will be in the N. H. A. and is now angling for Eddie Oatman of the Portland Rosebuds.

FIVE BEAVERS ON COAST ALL-STAR

Los Angeles, Who Finished First, Have Only Two Representatives

With the Coast League season brought to a conclusion, the annual task of selecting an all-star aggregation is comparatively an easy one. The selection follows:

Brief, Salt Lake, first base; Risberg, Vernon, second base; McGaffigan, Vernon, shortstop; Bates, Vernon, third base; Ryan, Salt Lake, left field; Bodie, San Francisco, centre field; Willie, Portland, right field; Bassler, Los Angeles, catcher; Hannah, Salt Lake, catcher; Pitchers: Noyes and Sothern, Portland; Couch, San Francisco; Ryan, Los Angeles; Martin, Oakland; Decanniere, Vernon. Utility infield: Howard, Portland. Utility outfield: Williams, Portland.

It will be noticed that Vernon, which is in second place, has four men among the regulars, while Los Angeles, the pennant winner, has but two. The reason for this is that three of the Vernon selections are in the infield, which, with its pitching staff, has been the main reason for its getting so close to the top.

The Los Angeles club is a better balanced organization, with fewer real stars, but with good steady men in every position.

There is no question that Buddy Ryan should get the call at left field, where he has been playing regularly this season, because of his terrific hitting and his all-around ability.

The choice in centre field is also easy, as Ping Bodie, who has led the league the greater part of the season in hitting, has had one of the best years in his career, and has been sold to the Philadelphia Athletics. Bodie is not only a fence buster, but covers a world of ground in the outfield, and has robbed Portland of more than one game this season by marvelous catches.

There may be some discussion over the selection of Willie in right field. Harry Wolter, of Los Angeles, is another star in this position, but he isn't as fast as Willie, either in the field or on the bases, and won't hit any harder.

Ray Bates is the class of the league at third. He has only one real rival, and this is Joe Evans, of the Beavers. Bates has been hitting well for the Tigers, and is absolutely steady.

The shortstops, as usual, are the weak sisters of the Coast League family. McGaffigan looks like the best all-around performer in the bunch. Although not a hard hitter, McGaffigan is a wonderful fielder, and more closely resembles Bancroft in this respect than any other man who has been in the league since. Ward is a good fielder, but is rather erratic, and can't be classed with McGaffigan.

Risberg, another Vernon player, is the choice at second. Bill Rodgers is his nearest rival for the honor, but the Portland captain has been handicapped this season by rheumatism, which doesn't allow him to show his true form.

At first Bunny Brief is in a class by himself. His terrific hitting makes him the favorite for this position, as he is also a good fielder.

Behind the bat Johnny Brasser, of Los Angeles, is the best hitting catcher in the circuit, and also a good receiver. Truck Hannah, of the Bees, has also

SENATORS HAVE NOT SIGNED NIGHBOR YET

Ottawa, Nov. 4.—Ted Dey, who will operate the Ottawa franchise in the National Hockey Association, has returned to the city from a hunting trip and appears to be quite indifferent about rounding up his team. He has not signed any players for the season, not even Frank Nighbor, despite anything said to the contrary. In fact he has not approached any of last season's stars and appears to be in a hurry to do so. But now that the N. H. A. meeting is over, Dey will probably get busy and find out just how much money his puck chasers want for a season's play. There is no sign of ice at the Arena.

Doctor Tells How To Strengthen Eyesight 50 per cent In One Week's Time in Many Instances

A Free Prescription You Can Have Filled and Use at Home.

Philadelphia, Pa. Do you wear glasses? Are you a victim of eye strain or other eye weaknesses? If so you will be glad to know that according to Dr. Lewis there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says, after trying it: "I was almost blind; could not see to read at all. Now I can read everything without any glasses and my eyes do not water any more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can even read fine print without glasses." It is believed that thousands who wear glasses can now discard them in a reasonable time and multitude more will be able to

strengthen their eyes so as to be spared the trouble and expense of wearing glasses. Eye troubles of many descriptions may be wonderfully benefited by following the simple rules. Here is the prescription: Go to any active drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and allow to dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation will quickly disappear. If your eyes are bothering you even a little, take steps to save them now before it is too late. Many hopelessly blind might have been saved if they had cared for their eyes in time.

Note: Another prescription for when the above was wanted, said: "Bon-Opto is a very remarkable eye medicine and which I would like to recommend to everyone who is troubled with eye troubles. It is a very good medicine and I can even read fine print without glasses." It is believed that thousands who wear glasses can now discard them in a reasonable time and multitude more will be able to

M'DONALD IS NOW MAJOR "FOGHORN"

Canadian Who Enlisted as Private at 53 Wins Another Promotion

London, Nov. 4.—"Foghorn" McDonald admits he is as "Scotch as oatmeal," but what he does not have to admit is that he is beyond doubt the best known man in the wonderful big army Canada has sent over to fight for the empire. Lieut.-Gen. Sir Sam Hughes is not jealous of "Foghorn's" distinction. The rawest rookie in the rear-most ranks of the Dominion forces proclaims it on the fighting line and looks up to this world wandering action of the clan McDonald as a shining example of what a lowly "buck" can do in trying times like these.

For "Foghorn" came over as a private himself just two short years ago. Some of his home folks told him he was a "darned old fool" to enlist at 53, but "Foghorn" had been a miner all his days. He had hit the western trail from sunbaked Batopilas in the wilds of Mexico to the snow-shrouded valleys of the Yukon, and he knew what perseverance and pluck and courage and sacrifice could do.

He knew he would "make the grade," and so did a great crowd of his friends who gathered a day or two ago to "wet" that new third stripe and crown on the cuffs of his khaki army jacket. He was back from the front to receive this latest promotion, and he was toasted a major of his majesty's forces.

A Great Voice

"Foghorn" was born Neil Roderick McDonald, but there are comparatively few who know him by that distinguished name. It is just plain "Foghorn" nowadays from one end of the trenches to the other, and one careful of that low rumbling, wind-whispering, rock-shivering voice explodes all possible doubt as to the derivation of the nickname.

There are plenty of Germans who know "Foghorn" too. In the days of the deadlock, when trenches crept closer and closer together, he was one of those who burrowed beneath the earth and set off great mines under the enemy. He had not been a mining engineer in vain. Often his voice would go booming across "No Man's Land" hurling picturesque invectives at the Germans.

Not to know "Foghorn" McDonald is to miss one of the big human personalities of this war. It is not difficult to realize what a tower of encouragement and strength he is to the soldiers at the front.

"He is the sort of officer whose men would follow him to the gates of hell itself and walk in laughing," declared Major "Eddie" Holland, a longtime friend and a V.C. of the South African war.

"And speaking of hell," he added, "there may or may not be something in the fact that 'Foghorn' belongs to the Little Black Devils."

That is the nickname of the 8th Canadian Infantry Battalion, of Winnipeg.

The name was acquired by that unit because the unit was the 90th Regiment of the Canadian militia when it joined for active service at the beginning of the war, and the nickname had come down with the regiment, known also as the Winnipeg Rifles, from the days of the Riel Rebellion of 1885 in Canada. The Germans have learned the name, so now they know the 8th Battalion as the Black Devils. The battalion has adopted as its insignia a small black imp dancing in glee. The unit is living up to its appellation, according to all reports from the Somme front.

Not Afraid of Any Man

It has been said of Foghorn that "he's not afraid of any man—and very few women." His home is in the great west of North America. Almost every province in Canada can claim him as her own, and he has lived much in the United States. His heart is as big as the world in which he has lived, and he has a way of calling a superior officer "Bill" or "Jim" or "George" and referring to a corporal as a "brother officer" that is quite baffling to the Englishman's idea of discipline. Some one spoke to "Fog" about it.

"Well, sir," he explained, "it's a man's war, by God, sir, and I respect every fellow who's out there doing his bit. I was a full-fledged 'buck' myself once, and I know what they have to go through."

"Foghorn" has been serving for some time as transport officer of the "Black Devils" and has been riding about the front lines on what he describes himself as "a mighty fine horse." Where he got the horse he will not tell you. It wouldn't be passed by the censor," he says.

A good transport officer tries to keep his losses at a minimum and to make the deficiencies good as quickly as he can. "Foghorn" had his men in the Black Devils trained to the minute in that respect.

"One night," he said, "we were taking some loads of ammunition away up in front. It was blacker than the ace of spades and if you struck a match you'd get your eye shot out. But in the midst of all this blackness and shelling we were getting I heard one of my men say to his partner: 'Keep your eye out for a good horse, Bill; this ought to be a good night to get one.'"

Two Nights Away

A day or two ago a staff colonel, fresh from Canada, walked into the "Savoy Club."

"Hello, Foghorn," he called out; "I heard you a couple of blocks down the street and came in to see you. Do you remember me?"

"Remember you?" repeated "Fog." "Why bless your brass-hatted old soul, I'd know your hide in a tart yard."

A "brass hat" is the army name for all staff officers, and it comes of course from the abundance of gold braid they wear on their caps.

Some one asked how things were going at the front.

"Going?" said "Fog." "Why the boys are getting so gay out there one of our battalions came parading up to the front line trenches the other day with a brass band playing for all it was worth. They were right where you could get killed any minute, too, and even my old boys thought they were crazy."

"Guess I'll be getting back to the front soon myself," he concluded with a sigh; "this quiet life of London is getting on my nerves."

ADJOURNED SCOTT CASE TO THURSDAY

Vancouver Magistrate Considering Whether He Should Hear Confession in Absence

SEARCH IS BEING PROSECUTED IN STATES

Vancouver, Nov. 4.—An intimation by Joseph Martin, K. C., that John T. Scott's confession to him involved the names of other people and that it had been arranged that Scott was to be a crown witness in the "other prosecution," was the sensational tidbit which was dropped in the police court this forenoon when the Scott case was called.

Scott was not present, and his former counsel made it clear that he had not retained to defend Scott but merely to see that protection at the hands of Mr. Brewster was arranged for him. Scott, he said, had made a confession and was to enter a plea of guilty. The statement, as it was not privileged, Mr. Martin was quite ready to give to the court, but Magistrate Shaw was reluctant to go ahead until he had first thought the matter over, and so he adjourned the hearing until Thursday morning. Who the other parties are, or the nature of the prosecutions for which Scott was to be a crown witness, was not revealed.

Explained Position

Vancouver, Nov. 4.—Everybody knows that yesterday John T. Scott, the young election worker who conducted plugging in the famous Vancouver by-election of last February, escaped on Thursday night from the Burns detectives who were supposed to be watching him in a Seattle hotel, but that did not prevent Joseph Martin, K. C., M. P., who had been consulted by Scott, from appearing in the police court this forenoon before Magistrate Shaw for the purpose of explaining his position in connection with Scott and of trying to put in Scott's confession, which had been made to him in the presence of Mr. Severance.

Mr. Martin's intention was to go into the witness box and detail his entire part in the transaction, so far as appearing for Scott was concerned. The attitude of Magistrate Shaw, however, was such that the evidence that both Mr. Martin sought to put in and W. E. Burns, who has been deputed to conduct the prosecution, was engaged should be given, was not heard and the case stands over till next Tuesday in order that his worship may have an opportunity of looking into the authorities on the subject.

In anticipation that something would arise, there were quite a few prominent Liberals in the court-room, including P. E. McTaggart, who conducted the prosecution in the case of Peter Annance, who was convicted in connection with the same transaction, and who was one of the party squad anxious to get Scott back in Vancouver.

That Mr. Martin was "riled" on learning that his former client had been spirited away was evident from his tone, but that he had washed his hands absolutely clear of the affair was equally evident from his statement to the magistrate.

Not Retained

Mr. Martin did not hesitate to say that he no longer appeared for Scott; in fact, he went so far as to say that he had not been retained for the purpose of defending Scott. Scott had come to him and said that he had sworn to an affidavit which he had sent to Mr. Brewster and that he also had answered certain questions which had been suggested by Mr. Brewster, and that he wanted to plead guilty to the charge.

In his affidavit he understood that he was going to be protected; that he was going to be treated when the new government came in as a crown witness in proceedings of some kind to be taken against other persons mentioned by him in his affidavit. Mr. Martin added that he had undertaken the task only of seeing that Scott was to be protected.

The question whether the magistrate had any power to hear the confession by Scott in the absence of the accused was the point that his worship was not clear about, although Mr. Brewster, the section of the act which gave that power, Mr. Martin added that the act was quite specific on the point and said that so far as he himself was concerned he was there not as counsel, but as a private individual who had heard the statement of Scott made in the presence of another party.

Magistrate Shaw, however, will take until next Thursday to go into the authorities on the subject. He mentioned that Monday, as suggested by Mr. Burns, would not give him enough time in which to do that, as he had the Saturday half-holiday to consider as well as the Lord's Day Act. Accordingly the case will come up next Thursday.

Doubly Wanted

Seattle, Nov. 4.—John T. Scott, against whom charges of election frauds have been made at Vancouver, B. C., and who was arrested in Seattle about 6 weeks ago, accused of having dodged immigration service inspection at the border when leaving British Columbia for the United States, now is a doubly wanted man. Scott is alleged to have left Seattle for parts unknown last Wednesday, eluding the vigilance of four Canadian government agents who had had him under surveillance following his release on \$1,000 bail to answer the charges placed against him by the United States immigration service.

The bail bond protects the immigration service and local officers of the service are not particularly worried over Scott's disappearance. An active

search is being conducted by the Canadian government officials, however.

This is Scott's second disappearance from Seattle since he was released on bail. The first time he was found at Centralia and was persuaded to return to Seattle.

Scott's Statement

Vancouver, Nov. 4.—After court this forenoon Joseph Martin, K. C., declined to give out for publication the confession of John T. Scott, which had been referred to before the magistrate. From other sources it is learned that Scott freely admits that he conducted the arrangements with John Clancy, of Seattle, who was paid in excess of \$1,000 on an agreement to furnish 100 pluggers in Vancouver. Scott says a man whose identity he does not know, met him on two occasions on the street, giving him \$1,000 the first time and a greater sum the second time, with which to carry on his operations. Scott apparently had upwards of \$5,000 available for the plugging. He says he suspected that the Conservatives were doing the same thing and relates that he was told by Clancy that Conservative agents were busy on the Seattle waterfront.

With this money Scott says he set out with Clancy, made arrangements for housing the pluggers in rooming houses here and later contributed towards a fund for the defence of Peter Annance. Scott suggests that only a score of votes were "plugged" by his Seattle gang, for some body apparently got an attack of "cold feet." Since he went to Seattle his lawyers have furnished him with money, mostly in Canadian banknotes, Scott says. In several paragraphs he involves others besides himself in arrangements for the plugging.

AUSTRIAN SECOND LINE WAS TAKEN

Italians Drove Forward Three Miles on Carso, It is Reported

10,000 HAVE BEEN TAKEN; KING VICTOR AT FRONT

Rome, Nov. 4.—All the Austro-Hungarian second line trenches in the sectors of Mount Patti and Hill 432, south-east of Gorizia, are now in the hands of the Italians. It was reported unofficially today.

A gain three miles deep had been made by the Italian forces in that section of the Carso plateau. The Austro-Hungarians had worked three months fortifying it, but it crumbled before the terrific cannonade of the Italian batteries. Included in the gains of the Italians is a system of roads leading to Castagnavizza. In addition to the prisoners, now estimated at about 10,000, the Italian troops have captured many machine guns.

King Present

Zurich, Nov. 4.—The successes won by the Italian forces in their new drive on the Austro-Hungarian city of Trieste were won under the eyes of King Victor Emmanuel. The presence of the king at the front has greatly inspired the Italian troops, says a dispatch from Milan today.

It says further that the Austro-Hungarians are consolidating all their resources in the Hermada zone to oppose the Italian advance. Hermada is about 11 miles northwest of Trieste.

100 PERISHED WHEN CONNEMARA SANK

Collision With Retriever Occurred During Terrific Gale in Irish Sea

London, Nov. 4.—In one of the worst gales ever known in the Irish Sea the British steamship Connemara, with passengers and a cargo of cattle from Greenmore, Ireland, for Holyhead, Wales, collided last night just outside the Carlingford Bar with the British steamship Retriever, laden with coal. Both vessels sank immediately with an estimated loss of life of about 100.

Of the 50 passengers and crew of 31 aboard the Connemara there is only one survivor. The entire crew of the Retriever was lost.

Many bodies of cattle also are being washed up, some alive.

RUSSIAN TROOPS FOR CAMPAIGN IN DOBRUDJA

Paris, Nov. 4.—From now on, only Russian troops will be used against the Mackensen's forces in Dobrudja, says a wireless dispatch today. The Roumanian troops that have been fighting there will be released to reinforce the army facing von Falkenhayn on the Transylvanian front. General Sakharoff, commander of the Russians in Dobrudja, is bringing Russian officers to that region from the east front.

TAKEN BY VILLISTS

El Paso, Nov. 4.—Government agents here received what they claim to be reliable information today that Santa Rosalia, Parral and Jimenez have been taken by Villa bandits. It is not known whether the towns were held by the bandits after their capture.

GOOD UNDERTONE AT NEW YORK TO-DAY

Speculative Enthusiasm Absent Owing to Near Approach of Election

(By Wise & Co.)

New York, Nov. 4.—The stock market opened firm and acted with a good undertone, but the speculative enthusiasm was absent owing to the close proximity of the election. United States Steel still held around the 100 level. The copper stocks were a little easier. The rails still were neglected. The Atchafalaya dividend meeting is to take place on December 5. With earnings of 13 per cent, higher dividend in some form is expected.

Winnipeg, Nov. 4.—Wheat closed 1/4 of a cent lower for November, 1/2 lower for December and 1/2 lower for May. Oats closed unchanged for December and 1/2 higher for May. Barley gained 1/4. Flax dropped 1/4 in November, 1/2 in December and 1/2 in May. The trade in all grades was curtailed to-day by the short season. The pit crowd contented themselves with evening up business, while the interest in the market was purely local. November was the strong month in a stubbornly flat market. The government agents again were in the market for November wheat, and there was considerable spreading between that month and December. The cash trade was indifferent. Offers in all grades were small, as were inquiries. Of No. 3 November 14,000 bushels were delivered.

PASTOR RUSSELL

World-Famed Evangelist Dead

Spent Life and Fortune on Religious Work

PASTOR C. T. RUSSELL
of London and Brooklyn Tabernacles.

Canadian, Texas, Oct. 31.—Charles T. Russell, independent minister, editor of the Watch Tower, and prominent author and Bible expositor, died this afternoon of heart disease, on an Atchafalaya, Topinka & Santa Fe train, en route from Los Angeles to New York. Pastor Russell complained of feeling ill soon after leaving Los Angeles, and gradually grew worse. Death came while the train was stopped at Pampa, Texas, near here.

Pastor Russell's full name was Charles Taze Russell. He was born in Allegheny, Pa., on February 16, 1852, the son of Joseph L. and Anna Eliza (Birney) Russell. He received his education under private tutors and was brought up under the Congregational faith. Failing to find satisfaction by inquiry from his religious teachers,

he turned to the study of the Bible. His sermons have been published by two thousand newspapers throughout the world, coming before some 12,000,000 readers weekly.

Of late years he has traveled some 50,000 miles a year, making semi-annual trips to England and Europe, his two big centres being London and Brooklyn, where his famous tabernacles were headquarters for the carrying on of his world-wide work.

Present World Conditions Pointed to Nearly Thirty Years Ago.

As a Bible expositor and as a student of prophecy, Pastor Russell ranks as one of the greatest of the reformers. In his six volumes of "Studies in the Scriptures," the Divine Plan of the Ages, as outlined in the Bible, is set forth in such a clear and harmonious manner that these books have had a greater circulation than any other religious book in the English language, excepting the Bible, they now having reached the enormous total of between nine and ten million volumes. The first volume, "The Divine Plan of the Ages," having been published in twenty-one languages. These books are published and distributed practically at cost. His first volume of studies in the scriptures appeared in 1886, the second in 1890, and in 1895 appeared his famous volume entitled "The Day of Vengeance," or "The Battle of Armageddon." In these volumes 1914 was pointed to as the date indicated by the Bible prophecies as marking the close of the Gentile dominion, following which the great time of trouble would come upon the world, which trouble would eventuate in the gradual establishment of the reign of peace on earth under the direct control of Christ's Kingdom. In these volumes the prophecies of the Bible pointing to the present conditions are set forth with such amazing accuracy as if they had been written since the great war commenced.

The Masterpiece of American Literature.

In 1898 appeared his fifth volume of "Studies in the Scriptures," entitled "The At-One-Ment Between God and Man." Aside altogether from its doctrinal teachings, this book is said by critics to be the masterpiece of American literature.

Photo-Drama of Creation.

In the end of 1913, and the early part of 1914, appeared what might be termed his crowning presentation to the world, viz.: The Photo-Drama of Creation. This wonderful production presents the Bible story beginning with the creation, tracing the world's history down to the present time. This great drama has been exhibited in many countries, and has attracted attention throughout the world. The best theatres and opera houses have been used in its exhibition. In America alone, some 9,000,000 people witnessed its presentation in 1914. All exhibitions of the drama were free. Indeed, the Photo Drama of Creation is one of the greatest religious philanthropies that has been given to the world.

The Secret of Russell's Popularity.

Probably no other feature of Pastor Russell's preaching appealed so strongly to the people as his stand for Jesus Christ, and Him crucified, as the world's Redeemer. His great doctrine was the ransom sacrifice of Jesus Christ and the hope of the world in the risen Saviour. His clear presentation of the Gospel of Hope held his audience spell-bound. His public addresses seldom lasted less than two hours, and often he would lecture two and three times a day. During his long ministry of over forty years he has taken his stand upon the Bible, absolutely independent of the creeds and doctrines of the past. During this time he has never ceased to herald the approach of Christ's Kingdom as the hope of the world, when the children of men will receive the blessings purchased by their Redeemer at Calvary, when the long prayed-for kingdom will bring reunion and resurrection and blessing to the groaning creation.

Like all the other great reformers of the past, Pastor Russell has been subject to much criticism and persecution from other religiousists. Seldom have they attacked his stand upon the Bible, but have been content to slander his character, and in this connection he shares a similar distinction with Luther and Wesley, who were similarly slandered and misrepresented. Pastor Russell's name will go down in history as one of the greatest of the reformers, while the names of his would-be persecutors will long have been forgotten. Probably no man during the past century has left such a stamp upon the religious world as Pastor C. T. Russell.

The Greatest of All Preachers.

The death of Pastor Russell witnesses the passing of the world's greatest preacher, and in many respects a most remarkable man, of the past century. Wherever he went vast throngs crowded the largest and best auditoriums to

hear his exposition of the Bible. He has preached to more people than any living man. The editor of The Continent says: "His writings have a greater newspaper circulation every week than those of any other living man. A greater, doubtless, than the combined circulation of the writings of all the priests and preachers in North America, together with a dozen of the best known editors and syndicate writers put together."

His sermons have been published by two thousand newspapers throughout the world, coming before some 12,000,000 readers weekly.

Of late years he has traveled some 50,000 miles a year, making semi-annual trips to England and Europe, his two big centres being London and Brooklyn, where his famous tabernacles were headquarters for the carrying on of his world-wide work.

Present World Conditions Pointed to Nearly Thirty Years Ago.

As a Bible expositor and as a student of prophecy, Pastor Russell ranks as one of the greatest of the reformers. In his six volumes of "Studies in the Scriptures," the Divine Plan of the Ages, as outlined in the Bible, is set forth in such a clear and harmonious manner that these books have had a greater circulation than any other religious book in the English language, excepting the Bible, they now having reached the enormous total of between nine and ten million volumes. The first volume, "The Divine Plan of the Ages," having been published in twenty-one languages. These books are published and distributed practically at cost. His first volume of studies in the scriptures appeared in 1886, the second in 1890, and in 1895 appeared his famous volume entitled "The Day of Vengeance," or "The Battle of Armageddon." In these volumes 1914 was pointed to as the date indicated by the Bible prophecies as marking the close of the Gentile dominion, following which the great time of trouble would come upon the world, which trouble would eventuate in the gradual establishment of the reign of peace on earth under the direct control of Christ's Kingdom. In these volumes the prophecies of the Bible pointing to the present conditions are set forth with such amazing accuracy as if they had been written since the great war commenced.

The Masterpiece of American Literature.

In 1898 appeared his fifth volume of "Studies in the Scriptures," entitled "The At-One-Ment Between God and Man." Aside altogether from its doctrinal teachings, this book is said by critics to be the masterpiece of American literature.

Photo-Drama of Creation.

In the end of 1913, and the early part of 1914, appeared what might be termed his crowning presentation to the world, viz.: The Photo-Drama of Creation. This wonderful production presents the Bible story beginning with the creation, tracing the world's history down to the present time. This great drama has been exhibited in many countries, and has attracted attention throughout the world. The best theatres and opera houses have been used in its exhibition. In America alone, some 9,000,000 people witnessed its presentation in 1914. All exhibitions of the drama were free. Indeed, the Photo Drama of Creation is one of the greatest religious philanthropies that has been given to the world.

The Secret of Russell's Popularity.

Probably no other feature of Pastor Russell's preaching appealed so strongly to the people as his stand for Jesus Christ, and Him crucified, as the world's Redeemer. His great doctrine was the ransom sacrifice of Jesus Christ and the hope of the world in the risen Saviour. His clear presentation of the Gospel of Hope held his audience spell-bound. His public addresses seldom lasted less than two hours, and often he would lecture two and three times a day. During his long ministry of over forty years he has taken his stand upon the Bible, absolutely independent of the creeds and doctrines of the past. During this time he has never ceased to herald the approach of Christ's Kingdom as the hope of the world, when the children of men will receive the blessings purchased by their Redeemer at Calvary, when the long prayed-for kingdom will bring reunion and resurrection and blessing to the groaning creation.

Like all the other great reformers of the past, Pastor Russell has been subject to much criticism and persecution from other religiousists. FINAL FIGURES OF A PROLONGED ELECTION

Incoming Government Will Have a Majority of Twenty-Seven Over All

The longest-drawn out election ever held in any British country has now concluded so far as concerns public knowledge of who are finally elected on the vote as counted. It is a tale over seven weeks since the voters of the province expressed their opinion at the polls that Bowser must go, and it is three months since the first ballots were cast in the election, those which the sailors on H. M. C. S. Rainbow marked at Esquimalt.

By the tardy transmission of the figures of the soldiers' ballots as cast in the Old Country and in France, it is now possible to make up the final figures of the vote for candidates, which shows that the Liberal opposition has secured thirty-seven seats out of forty-seven, that the Bowser party has been successful in electing its candidates in eight seats, that one Independent Conservative retained the seat which he formerly held and that one Socialist was re-elected for the fifth time for the constituency which he has represented since 1902.

The seats won by the several parties are as follows:

Liberals—Alberni, Atlin, Cariboo, Chilliwack, Columbia, Comox, Cranbrook, Dewdney, Esquimalt, Fernie, Grand Forks, Greenwood, Islands, Kamloops, Kaslo, Nanaimo, New Westminster, North Okanagan, North Vancouver, Okanagan, Prince Rupert, Revelstoke, Richmond, Rossland, Saanich, Slokan, South Vancouver, Vancouver (B), Victoria (A), Yale—37.

Independent Conservative—Cowichan—1.

Bowser supporters—Delta, Port George, Lillooet, Nelson, Similkameen, South Okanagan, Trail, Vancouver (A)—8.

Socialist—Newcastle—1.

Twenty-one of the candidates who failed to poll one-half as many votes as the lowest candidate elected lost their deposits, but there are in addition two candidates who withdrew and whose names remained on the ballots furnished the soldiers. No track was kept of their vote in Canada, but overseas Robert McBride, Independent Conservative candidate in Richmond, got the support of thirty-five soldiers, and Captain T. O. Townley, Independent Conservative in Vancouver city, got two hundred and fifty. There is no specific provision in the act as to the return of the deposits of candidates who withdrew, and it would look as if they drop which the total sum for forfeited will be in the "bucket of expense" for the late election, which is roughly estimated as being in the neighborhood of \$150,000.

The candidates who lost their \$100 were two ex-members of the House, supporting the premier; three Independent Conservatives in addition to the two who withdrew, eight Socialists, three Labor candidates, and five Independents. They were: Fraser (C), Cariboo; Pritchard (Labor) and Winkler (S), Comox; McDonald (S), Fernie; Gillett (Ind. Con.), Port George; Jackson (C), Greenwood; Skinner (S), Nanaimo; Bloomer (Labor), Nelson; McNeish (Ind. Con.), North Vancouver; Goodwin (S), Trail; Trotter (Labor), Cassidy (Ind. Con.), Harrington (S), White (Ind.), Appleby (Ind.), Fawcett (Ind.), Vancouver; Dr. E. A. Hall (Ind.), Morley (Ind.), Smith (S), Poupard (S), Victoria.

A. E. Planta, Bowser candidate in Nanaimo, who lost his deposit on the civilian vote and on the civilian vote and that of the soldiers in Canada combined, managed to secure it by six through getting a considerable number of votes in the Old Country. Captain J. N. Taylor, who is serving in a medical capacity in France, on the other hand, did not get a majority anywhere, and while he was able to save his deposit on the civilian vote he lost it on the civilian and Canadian vote, finally managing to save it by one vote on the total count.

In the table below of the detailed vote, the figures given for Atlin are unofficial, the returning officer not yet having made his return of the official vote cast. The return from the official in Port George came in only a day or two ago, and that from Chilliwack was also very long delayed. Included in the figures of the soldiers' vote in Canada for South Vancouver are 103 for Weart, 114 for Boulton and 13 for Wilton which were counted subject to protest, but it is hardly likely that anything more will be heard of the protest. It is possible that recounts will be asked for in the cases of Esquimalt, Islands, Port George and Slokan, and in the case of Port George there is a likelihood that an election protest may be entered, as it is alleged that there were extensive irregularities which would invalidate the election of the minister of lands if proven. The final for the thirty-nine constituencies follow:

Thompson, 16th Battalion, who was reported in these columns as being wounded on Oct. 9, and admitted to 13 General Hospital, Boulogne, that he has now been transferred to Northumberland War Hospital Gosforth, Newcastle-on-Tyne. Sergt. Thompson was wounded in the left forearm and in the right breast. The wound in the breast, being only a flesh wound, is healing nicely, but the arm is not progressing so favorably, the bullet having lodged among the tendons which will necessitate another operation.

ANTI-UNIONISTS TO MEET NEXT WEEK

Rev. R. A. Macdonnell Tells of
Plans Adopted by Toronto
Convocation

"The present movement will continue as long as the agitation for Church Union exists," pronounced Rev. R. A. Macdonnell, the local Presbyterian delegate at the recent anti-union convocation held in St. Andrew's church, King street, Toronto, who returned yesterday from the east. Mr. Macdonnell comes back confident as to the outcome of the resistance to union which is now being organized throughout the Dominion. The temper of the meeting from which he has just returned was even stronger than was generally anticipated, and the three-days sessions were marked by enthusiasm and a zeal which bespoke determination and personal conviction on the part of each of the delegates. The idea of church union was projected about fourteen years ago at Winnipeg, Mr. Macdonnell explained in brief. Presbyterians and Methodists were in conference in the city at the same time. Three of the former were sent over as delegates to the meeting of the latter. One had, probably in an overflow of brotherly feeling, expressed the wish that the two churches might unite more closely. In reply to a question from the Methodist conference this delegate had explained that he spoke unofficially. But the expression had had wide-reaching effects, as the present agitation was the outgrowth.

The convocation of the Presbyterian Church Association, held in Toronto on October 17, 18 and 19 was arranged for the purpose of organizing resistance to this movement favoring the merging of the Presbyterian, Methodist and Congregational churches.

About six hundred delegates lay and clerical were present. The convocation was presided over by Dr. Andrew Robertson, of St. James' Square church, Toronto. J. C. Cunningham acted as secretary. A complete record of the addresses and discussions will be issued shortly in pamphlet form to the membership of the Presbyterian church throughout Canada. In order that the Anti-Union argument may be in the hands of the people. It is also the purpose of the association to start a paper for the presentation of the Presbyterian viewpoint on all matters pertaining to the church. At the head of this movement is John Penman, of Paris, Ont., who very generously came forward not only with a promise of a liberal contribution toward the starting of the paper but with offers of active help in the organization of this medium. There was a very hearty response from the convocation to this idea, as it was generally seen how valuable such an avenue for the expression of opinion would be, the Union element having monopolized the present Presbyterian publications.

Purpose Accomplished.
"There has really been accomplished in a splendid way what the convocation set out to do, viz., to organize. A plan has been perfected for organization throughout the whole Dominion," said Mr. Macdonnell, who explained that last night there had been a meeting in Vancouver along the lines, while Victoria had a meeting arranged for next Wednesday evening in the King's Daughters' rooms, and New Westminster had fixed a conference of the same kind for November 16. Representatives from each of these cities had attended the meeting in Toronto. Mr. Macdonnell as a delegate from Victoria; Dr. Fraser, of the First Presbyterian church, from Vancouver; and Rev. Mr. Thomson and Mr. Tait from New Westminster. A paper by J. C. Brown, of New Westminster, dealing with the contribution of the Presbyterian church by its polity and doctrines to the rights of the people and civil government, was read at the convocation. The Presbyterian church from Atlantic to Pacific was represented in fact, Ontario, naturally, being so relatively easily accessible to Toronto, having the largest representation however. Mr. Macdonnell spoke to the last session of the convocation, pointing out that as far as Victoria was concerned six of the eighth Presbyterian pastors were against union.

Asked if there was a preponderance of sympathy one way or the other in any particular part of the country, Mr. Macdonnell said that the Dominion could be divided roughly into two divisions in this respect, viz., east and west of the great lakes. The east, he said, had a much higher proportion opposed to church union than the west, which held the minority also in actual church membership.

The result of the convocation would be in effect a guarantee that the Presbyterian church would continue in Canada. One effect of the organized opposition might be the dropping out of those Presbyterians who favored union. But the real object of the convocation had been secured, and the covenant, which all Presbyterians would be given the opportunity of signing, would enroll those opposed to union in a united stand. This covenant, which was the principal resolution passed at convocation, was as follows:

"We, the members of the Presbyterian church in Canada, assembled in St. Andrew's church, Toronto, whilst affirming our belief in the spiritual unity of all believers, our cordiality toward our brethren of other communities and our willingness for all feasible co-operation with them in the interests of the Kingdom of God, express our conviction that the time has not arrived for the discontinuance of the Presbyterian church in Canada:

"Whereas, the union committee in its first report, and the General Assembly in 1909, in adopting that report, laid down as a condition of organic union that a union of the churches is to be real and lasting must carry the consent of the entire membership.

AUTOINTOXICATION OR SELF-POISONING

The Dangerous Condition
Which Produces Many Well
Known Diseases

HOW TO GUARD AGAINST THIS TROUBLE

"FRUIT-A-TIVES"—The Wonderful Fruit Medicine—Will Protect You

Auto-intoxication means self-poisoning, caused by continuous or partial constipation, or insufficient action of the bowels.

Instead of the refuse matter passing daily from the body, it is absorbed by the blood. As a result, the kidneys and skin are overworked, in their efforts to rid the blood of this poisoning.

"Poisoning of the blood in this way often causes indigestion, Loss of Appetite and Disturbed Stomach. It may produce Headaches and Sleeplessness. It may irritate the Kidneys and bring on Pain in the Back, Rheumatism, Gout, and Rheumatic Pains. It is the chief cause of Eczema—and keeps the whole system unhealthy by the constant absorption into the blood of this refuse matter.

"Fruit-a-tives" will always cure Auto-intoxication or self-poisoning—as "Fruit-a-tives" acts gently on bowels, kidneys and skin, strengthens the bowels and tones up the nervous system. 50c a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

people was taken upon that understanding, and out of a total membership of 298,918, 112,000 voted in favor of organic union and 50,733 against.

"And whereas, according to the foregoing, although from 1911 to 1915 the membership of the Presbyterian church in Canada increased approximately 40,000, the vote for union increased only 600, while the vote against union increased 23,000.

"Therefore, in view of these facts, as well as for other reasons, it is hereby resolved that our present duty is to maintain and continue the Presbyterian church in Canada, and to this duty we solemnly pledge ourselves."

Chemical Investigation Society—J. A. Dawson, analyst in charge of the Dominion of Canada laboratories in Vancouver spent part of this week in this city in connection with the establishment for the west of a branch of the Chemical Investigation Society. If negotiations are successful there will be a local section for the territory between Manitoba and British Columbia western border. It takes thirty members to constitute a section, and this section will hold monthly meetings to consider any matters that come in the scope of chemical research. Alberta and Saskatchewan have three members each, at present, and British Columbia has nine. It is hoped to raise the British Columbia membership to twelve in the near future. Mr. Dawson's visit added three new members, and evoked the interest of others. The Victoria Pharmaceutical Association added a member, another member represents a company manufacturing explosives, and a third is in the government service.

She—There's one thing about me; when asked to sing I don't say I can't, I just go ahead. He—I see; and let the company find out for themselves.

SPLENDID WORK BY OAK BAY RED CROSS

Annual Meeting Hears Reports
and Elects Officers; More
Help Needed

Since the last general meeting of the Oak Bay Red Cross Society no less than 20,000 garments have been made by the ladies in their work room in the High School building, Oak Bay, and over \$7,000 has been collected for Red Cross purposes. That was the statement made last night at the second annual meeting of the Red Cross Society of Oak Bay held in the municipal hall with J. J. Shallocross presiding. There was a large attendance and those present were mostly workers for the cause. Mr. Shallocross spoke of the splendid work done by the ladies. This was particularly apparent in connection with the work at the fair, where they had raised \$400 as a result of the week's work. This not only helped the Red Cross fund, but had a beneficial effect on the Home Products Fair which was a very worthy cause. He emphasized the urgent need of more workers. None of the money which was raised was squandered, but all was used directly for the men at the front.

A short discussion followed in which J. S. Floyd, who had audited the books, made one or two suggestions as to improvements which might be made in the method of keeping them.

F. A. Pauline, M.P.P., congratulated the ladies on the splendid showing that had been made. He emphasized the fact that the call was just as urgent to-day as it was two years ago, and he hoped the work would continue unabated.

The report was then adopted and the following officers and committees were elected for the coming year: President, P. F. Curtis; hon. secretary, treasurer, F. W. Clayton; hon. auditor, J. S. Floyd; committee, Judge Lampman, Messrs. F. A. Pauline, T. W. Tom, J. Brown, R. Fowler, J. S. Floyd, F. W. Clayton, Salt, H. P. Pullen and Rev. H. Payne, Mesdames Bullock, Webster, Bunting, Nivn, Watson, Lampman, Floyd, Doe, Curtis, Dunbrack, Wollaston, Galletly, W. J. Goeppel, Lange, W. Luney and Allison.

Judge Lampman spoke of the debt the committee owed to the chairman for the past year, J. J. Shallocross. The new president was also full of energy and enthusiasm and would undoubtedly make a splendid officer.

Mrs. Bullock-Webster suggested that during the coming year the collecting should be done by the men, leaving the ladies free to devote their time to the workroom. That should be their part of the work.

On motion of Mr. A. Pauline, seconded by Judge Lampman, hearty votes of thanks were passed to the president, the honorary secretary and the honorary auditor for the services they had rendered and also to Mrs. Dr. Burgess for the entertainment she had given at her home when the sum of something like \$181 had been raised for Red Cross purposes.

The following is a part of the annual report prepared by the secretary: "Through the kindness of the board of school trustees, the ladies' work committee have had the use of rooms in the Oak Bay avenue school, and the result of their labors is evident from the following list of articles made during the above period: Surgical shirts, 805; day shirts, 1,329; tri. and T bandages, 1,288; chest bandages, 888; abdominal bandages, 107; scutellus bandages, 2,851; roller bandages, 4,930; dressings, 7,238; pyjamas, 635; personal property bags, 455; socks, pairs, 850; dressing gowns, 49; kit bags, 6; wash cloths, 79; convalescent suits, 22; slippers, 152; hot water bag covers, 55; scarfs, mitts and helmets, 45; operating stockings, 19; handkerchiefs, 26. Total, 20,534.

The ladies' work committee have, first under the leadership of Mrs. P. S. Lampman and later under the guidance of Mrs. Bullock-Webster, in addition to the above work, undertaken the collection of membership fees and donations and carried out the several fetes, concerts and teas with great success.

"The committee take this opportunity of gratefully acknowledging the supplies and materials which have been so generously given and assistance so willingly rendered on all occasions.

"The committee make an earnest appeal for more assistance from all those living in Oak Bay. At the present time the burden is thrown on a comparatively small number of earnest workers, and more helpers are urgently needed.
